

CONTENTS

ORIGINAL ARTICLES

- 1 Effects of land use on temporal-spatial variability of soil water and soil-water conservation
C. Zeng, M. Shao, Q. Wang and J. Zhang
- 14 Effect of steel converter slag as iron fertilizer in some calcareous soils
A.M. Torkashvand
- 23 Heterosis and gene action study of agronomic traits in diploid and autotetraploid rice
M.Q. Shahid, G. Liu, J. Li, M. Naeem and X.D. Liu
- 33 Winter barley performance on two different soils under conservation tillage systems
C.A. Damalas and A.S. Lithourgidis
- 39 Specific polyphenol oxidase activity of red clover (*Trifolium pratense*) and its relation with forage quality in field experiments
B. Eickler, M. Gierus, J. Kleen and F. Taube
- 50 Autumn and spring management in seed crops of meadow fescue (*Festuca pratensis* Huds.)
L.T. Havstad
- 60 Genetic diversity among alfalfa (*Medicago sativa* L.) cultivars in Northwest China
X. Wang, X. Yang, L. Chen, G. Feng, J. Zhang and L. Jin
- 67 Phenolic contents and antioxidant activities in covered whole-grain flours of Norwegian barley varieties and in fractions obtained after pearling
A.K. Holtekjølen, S. Sahlström and S.H. Knutsen
- 75 Climate-induced overwintering challenges for wheat and rye in northern agriculture
P. Peltonen-Sainio, K. Hakala and L. Jauhiainen
- 84 Changes in selected soil physical properties caused by sodicity of soil and irrigation water
N.I. Eltaif, M.A. Gharaibeh and Z.A. Ababneh

SHORT COMMUNICATION

- 92 Assessment of potato proteinase inhibitor-II gene as an antifungal and insecticidal agent
A. Majeed, R. Makhdoom, T. Husnain and S. Riazuddin
