

Practitioner's perspectives

- 1 Practitioner's perspectives: introducing a different voice in applied ecology
P. E. Hulme
- 3 Translating research into action; bumblebee conservation as a case study
D. Goulson, P. Rayner, B. Dawson and B. Darvill

Special Profile: Monitoring species abundance and distribution at the landscape scale

- 9 Monitoring species abundance and distribution at the landscape scale
J. P. G. Jones
- 14 Can the abundance of tigers be assessed from their signs?
Y. Jhala, Q. Qureshi and R. Gopal
- 25 Using presence-only and presence-absence data to estimate the current and potential distributions of established invasive species
A. M. Gormley, D. M. Forsyth, P. Griffioen, M. Lindeman, D. S. L. Ramsey, M. P. Scroggie and L. Woodford
- 35 Conserving a moving target: planning protection for a migratory species as its distribution changes
N. J. Singh and E. J. Milner-Gulland
- 47 Making better sense of monitoring data from low density species using a spatially explicit modelling approach
M. P. van der Burg, B. Bly, T. VerCauteren and A. J. Tyre
- 56 Addressing challenges when studying mobile or episodic species: hierarchical Bayes estimation of occupancy and use
R. S. Mordecai, B. J. Mattsson, C. J. Tzilkowski and R. J. Cooper
- 67 Modelling community dynamics based on species-level abundance models from detection/nondetection data
Y. Yamaura, J. Andrew Royle, K. Kuboi, T. Tada, S. Ikeno and S. Makino
- 76 Optimally managing under imperfect detection: a method for plant invasions
T. J. Regan, I. Chadès and H. P. Possingham
- 86 Editor's Choice: Optimizing search strategies for invasive pests: learn before you leap
P. W. J. Baxter and H. P. Possingham

Anthropogenic impact

- 96 The frequency and magnitude of non-additive responses to multiple nutrient enrichment
J. E. Allgeier, A. D. Rosemond and C. A. Layman
- 102 The impact of alternative harvesting strategies in a resource-consumer metapopulation
C. M. J. Strevens and M. B. Bonsall

Protected area design

- 112 Ecological coherence of marine protected area networks: a spatial assessment using species distribution models
G. Sundblad, U. Bergström and A. Sandström
- 121 Conserving pelagic habitats: seascape modelling of an oceanic top predator
M. Louzao, D. Pinaud, C. Péron, K. Delord, T. Wiegand and H. Weimerskirch
- 133 Cost-effective age structure and geographical distribution of boreal forest reserves
J. Lundström, K. Öhman, K. Perhans, M. Rönqvist and L. Gustafsson

Connectivity

Forum: Connectivity and conservation

- 143 Connectivity, dispersal behaviour and conservation under climate change: a response to Hodgson *et al.*
V. A. J. Doerr, T. Barrett and E. D. Doerr
- 148 Habitat area, quality and connectivity: striking the balance for efficient conservation
J. A. Hodgson, A. Moilanen, B. A. Wintle and C. D. Thomas

- 153 Independent effects of habitat loss, habitat fragmentation and structural connectivity on the distribution of two arboreal rodents
A. Mortelliti, G. Amori, D. Capizzi, C. Cervone, S. Fagiani, B. Pollini and L. Boitani

Impact of invasives

Forum: Modelling invasive pathogens

- 163 Assessing spatial patterns of disease risk to biodiversity: implications for the management of the amphibian pathogen, *Batrachochytrium dendrobatidis*
K. A. Murray, R. W. R. Retallick, R. Puschendorf, L. F. Skerratt, D. Rosauer, H. I. McCallum, L. Berger, R. Speare and J. VanDerWal
- 174 Modelling the future distribution of the amphibian chytrid fungus: the influence of climate and human-associated factors
J. R. Rohr, N. T. Halstead and T. R. Raffel
- 177 Issues with modelling the current and future distribution of invasive pathogens
K. A. Murray, R. W. R. Retallick, R. Puschendorf, L. F. Skerratt, D. Rosauer, H. I. McCallum, L. Berger, R. Speare and J. VanDerWal

- 181 Qualitative modelling of invasive species eradication on subantarctic Macquarie Island
B. Raymond, J. McInnes, J. M. Dambacher, S. Way and D. M. Bergstrom
- 192 The potential effect of exotic Pacific rats *Rattus exulans* on vectors of scrub typhus
C.-C. Kuo, H.-C. Wang and C.-L. Huang

Avian response to disturbance

- 199 Response of raptors to a windfarm
J. C. Garvin, C. S. Jennelle, D. Drake and S. M. Grodsky
- 210 Negative impact of traffic noise on avian reproductive success
W. Halfwerk, L. J. M. Holleman, C. M. Lessells and H. Slabbekoorn
- 220 Long-term impact of changes in sheep *Ovis aries* densities on the breeding output of the hen harrier *Circus cyaneus*
A. Amar, J. Davies, E. Meek, J. Williams, A. Knight and S. Redpath
- 228 Preserving frugivorous birds in agro-ecosystems: lessons from Spanish olive orchards
P. J. Rey

Vegetation management

- 238 Long-term dynamics of herbaceous vegetation structure and composition in two African savanna reserves
R. Buitenwerf, A. M. Swemmer and M. J. S. Peel
- 247 Habitat or fuel? Implications of long-term, post-fire dynamics for the development of key resources for fauna and fire
A. Haslem, L. T. Kelly, D. G. Nimmo, S. J. Watson, S. A. Kenny, R. S. Taylor, S. C. Avitabile, K. E. Callister, L. M. Spence-Bailey, M. F. Clarke and A. F. Bennett
- 257 Lucerne-dominated fields recover native grass diversity without intensive management actions
P. Török, A. Kelemen, O. Valkó, B. Deák, B. Lukács and B. Tóthmérész
- 265 Variation partitioning in canonical ordination reveals no effect of soil but an effect of co-occurring species on translocation success in *Iris atrofusca*
S. Volis, M. Dorman, M. Blecher, Y. Sapir and L. Burdeniy
