

Volume 19 · Issue 1 · February 2011

ORIGINAL PAPERS

A three-tiered framework to select, prioritize, and evaluate potential wetland and stream mitigation banking sites

M.P. Strager · J.T. Anderson · J.D. Osbourne · R. Fortney 1

Soil and periphyton indicators of anthropogenic water-quality changes in a rainfall-driven wetland

P.V. McCormick 19

Factors affecting the establishment of *Schoenoplectus tabernaemontani* (C.C. Gmel.)

Palla in urban lakeshore restorations

D.A. Vanderbosch · S.M. Galatowitsch 35

Refinement of the fundamental niche of black mangrove (*Avicennia germinans*) seedlings in Louisiana: Applications for restoration

L.K. Alleman · M.W. Hester 47

Effects of trampling on in-stream macroinvertebrate communities from canyoning activity in the Greater Blue Mountains World Heritage Area

N. Hardiman · S. Burgin 61

Are landscape-based wetland condition indices reflected by invertebrate and diatom communities?

A. Suren · C. Kilroy · P. Lambert · J. Wech · B. Sorrell 73

Recovery of fish and crustacean communities during remediation of tidal wetlands affected by leachate from acid sulfate soils in north-eastern Australia

D.J. Russell · K.M. Preston · R.J. Mayer 89

***Vibrio cholerae* in waters of the Sunderban mangrove: relationship with biogeochemical parameters and chitin in seston size fractions**

R.J. Lara · S.B. Neogi · M.S. Islam ·

Z.H. Mahmud · S. Islam · D. Paul · B.B. Demoz ·

S. Yamasaki · G.B. Nair · G. Kattner 109
