

# Contents

Volume 63, No. 1, January 2011

**1 Editorial**

**Research Articles**

- 3 Functional and dynamic rheological properties of acetylated starches from two cultivars of cassava**  
O. F. Osundahunsi and R. Mueller
- 11 Pasting and rheologic properties of potato starch and maize starch mixtures**  
Y. Zhang, Z. Gu, Y. Hong, Z. Li and L. Cheng
- 17 Influence of  $\alpha$ -amylolysis on the formation of electron density inhomogeneities on the surface of starch granules**  
M. Sujka, J. Jamroz and R. Kwiatkowski
- 24 Study on the morphology, crystalline structure, and thermal properties of *Fritillaria ussuriensis* Maxim. starch acetates with different degrees of substitution**  
L. Xia, G. Wenyuan, J. Qianqian, H. Luqi and L. Changxiao
- 32 Isolation and characterization of Mexican chayote tuber (*Sechium edule Sw.*) starch**  
J. P. Hernandez-Uribe, E. Agama-Acevedo, R. A. Gonzalez-Soto, L. A. Bello-Pérez and A. Vargas-Torres
- 42 Biodegradability of polyethylene–starch blends prepared by extrusion and molded by injection: Evaluated by response surface methodology**  
H. Vieyra, E. S. M. Martínez and M. Á. A. Méndez
- 52 Patents**

# Contents

Volume 63, No. 2, February 2011

## Research Articles

- 55 **Extrusion cooking properties of white and coloured rice varieties with different amylose content**  
R. Sompong, S. Siebenhandl-Ehn, E. Berghofer and R. Schoenlechner
- 64 **Reduction of solid content in starch industry wastewater by microfiltration**  
Ž. Šaranović, Z. Šereš, J. Aleksandar, B. Pajin, L. Dokić, J. Gyura, B. Dalmacija and D. Š. Simović
- 75 **Granule structural, crystalline, and thermal changes in native Chinese yam starch after hydrolysis with two different enzymes— $\alpha$ -amylase and gluco-amylase**  
X. Li, W. Gao, Y. Wang, Q. Jiang and L. Huang
- 83 **Rheological and calorimetric properties of corn-, wheat-, and cassava- starches and soybean protein concentrate composites**  
A. Colombo, A. E. León and P. D. Ribotta
- 96 **Combinatorial effects of mechanical activation and chemical stimulation on the microwave assisted acetylation of corn (*Zea mays*) starch**  
C. I. K. Diop, H. L. Li, B. J. Xie and J. Shi
- 106 **Effect of physicochemical properties of starch on the tendency of potato tuber flesh to darkening and the processed product quality**  
J. Poberežny
- 117 **Symposia and Congresses**
- 118 **Patents**
