

MITES

**Host plant quality, spatial heterogeneity, and the stability of mite predator–prey dynamics**

M.P. Daugherty 311

**Morphological variation and reproductive incompatibility of three coconut-mite-associated populations of predatory mites identified as *Neoseiulus paspalivorus* (Acari: Phytoseiidae)**

N. Famah Sourassou · R. Hanna · I. Zannou · G. de Moraes · K. Negloh · M.W. Sabelis 323

**Clarifying the identity of *Amblyseius swirskii* and *Amblyseius rykei* (Acari: Phytoseiidae): are they two distinct species or two populations of one species?**

I.D. Zannou · R. Hanna 339

**Ambulatory dispersal in *Tetranychus urticae*: an artificial selection experiment on propensity to disperse yields no response**

N.S.H. Tien · M.W. Sabelis · M. Egas 349

TICKS

**Physiological effects upon *Amblyomma americanum* (Acari: Ixodidae) infected with *Beauveria bassiana* (Ascomycota: Hypocreales)**

K. Craddock · G. Needham 361

**Biological differences between two allopatric populations of *Amblyomma cajennense* (Acari: Ixodidae) in Argentina**

M. Mastropaolo · S. Nava · A.A. Guglielmone · A.J. Mangold 371

**Development and biological characteristics of *Haemaphysalis longicornis* (Acari: Ixodidae) under field conditions**

H. Zheng · Z. Yu · Z. Chen · L. Zhou · B. Zheng · H. Ma · J. Liu 377

***Rhipicephalus sanguineus* on dogs: relationships between attachment sites and tick developmental stages**

F. Dantas-Torres · D. Otranto 389

**Tick infestation (Acari: Ixodidae) in roe deer (*Capreolus capreolus*) from northwestern Spain: population dynamics and risk stratification**

L. Vázquez · R. Panadero · V. Dacal · F.J. Pato · C. López · P. Díaz · M.S. Arias ·

G. Fernández · P. Díez-Baños · P. Morrondo 399
