Assessment of diet and physical activity: new tools; old challenges 377
A Yngve, M Tseng, A Hodge, G McNeill and I Haapala

HOT TOPIC – Assessment and methodology

Rapid assessment tools for ranking pregnant minority women into multi-nutrient exposure groups 379

K Abu-Saad, I Shai, H Vardi, I Belmaker and D Fraser

The reliability and validity of a short FFQ among Australian Aboriginal and Torres Strait Islander and non-Indigenous rural children 388

JD Gwynn, VM Flood, CA D'Este, JR Attia, N Turner, J Cochrane and JH Wiggers on behalf of the Many Rivers Diabetes Prevention Project study team

CHD risk in relation to alcohol intake from categorical and open-ended dietary instruments 402

H Ward, RN Luben, NJ Wareham and K-T Khaw

Validation of an FFQ and options for data processing using the doubly labelled water method in children 410

AE Dutman, A Stafleu, A Kruizinga, HAM Brants, KR Westerterp, C Kistemaker, WJA Meuling and RA Goldbohm

Children's accuracy of portion size estimation using digital food images: effects of interface design and size of image on computer screen 418

T Baranowski, JC Baranowski, KB Watson, S Martin, A Beltran, N Islam, H Dadabhoy, S-h Adame, K Cullen, D Thompson, R Buday and A Subar

Validation of a quantitative FFQ for the Barbados National Cancer Study 426

M Pakseresht, S Sharma, X Cao, R Harris, C Caberto, LR Wilkens, AJM Hennis, S-Y Wu, B Nemesure and MC Leske, Barbados National Cancer Study Group

Reliability and convergent validity of the past-week Modifiable Activity Questionnaire 435

KP Gabriel, JJ McClain, KK Schmid, KL Storti and BE Ainsworth

Examining the validity and reliability of the Chinese version of the International Physical Activity Questionnaire, long form (IPAQ-LC) 443

D Macfarlane, A Chan and E Cerin

The inclusion of functional foods enriched in fibre, calcium, iodine, fat-soluble vitamins and *n*-3 fatty acids in a conventional diet improves the nutrient profile according to the Spanish reference intake 451

I Berasategi, M Cuervo, AR de las Heras, S Santiago, JA Martínez, I Astiasarán and D Ansorena

Developing a database of vitamin and mineral supplements (ViMiS) for the Norfolk arm of the European Prospective Investigation into Cancer (EPIC-Norfolk) 459

MAH Lentjes, A Bhaniani, AA Mulligan, K-T Khaw and AA Welch

Situational characteristics of young adults' eating occasions: a real-time data collection using Personal Digital Assistants 472

MN Laska, D Graham, SG Moe, L Lytle and J Fulkerson

Monitoring and surveillance

Blood concentration of methylmercury in relation to food consumption 480

R Airaksinen, AW Turunen, P Rantakokko, S Männistö, T Vartiainen and PK Verkasalo

Toddler foods, children's foods: assessing sodium in packaged supermarket foods targeted at children 490

CD Elliott and MJ Conlon

Biological and behavioural determinants

To what extent have sweetened beverages contributed to the obesity epidemic? 499

G Woodward-Lopez, J Kao and L Ritchie

Contents continued from outside back cover

Social, economic, political and environmental determinants

Adult consumers' understanding and use of information on food labels:
a study among consumers living in the Potchefstroom and Klerksdorp regions,
South Africa 510

SA Jacobs, H de Beer and M Larney

Who is eating where? Findings from the SocioEconomic Status and Activity
in Women (SESAW) study 523

LE Thornton, DA Crawford and K Ball

Sociodemographic, lifestyle, mental health and dietary factors associated
with direction of misreporting of energy intake 532

JE Lutomski, J van den Broeck, J Harrington, F Shiely and IJ Perry

Public policies

Food nutrition labelling practice in China 542

Y Tao, J Li, YM Lo, Q Tang and Y Wang

Use of FAO food balance sheets to estimate the potential ability of novel folate-
enriched eggs to increase the folate supply in European Union countries 551

T Sheehy and S Sharma

Special groups

What children eat during afternoons and evenings: is it important? 557

JE Rockell, PML Skidmore, WR Parnell and N Wilson

Corrigendum

Rapid assessment tools for ranking pregnant minority women into
multi-nutrient exposure groups 563

K Abu-Saad, I Shai, H Vardi, I Belmaker and D Fraser
