

## CONTENTS

Hejcman M., Schellberg J., Pavlů V.: Competitive ability of <i>Rhinanthus minor</i> L. in relation to productivity in the Rengen Grassland Experiment .....	45
Jafariehyazdi E., Javidfar F.: Comparison of allelopathic effects of some brassica species in two growth stages on germination and growth of sunflower .....	52
Vrchotová N., Šerá B., Krejčová J.: Allelopathic activity of extracts from <i>Impatiens</i> species .....	57
Shujie M., Yunfa Q.: Effects of phosphorus concentration on adaptive mechanisms of high- and low-P efficiency soybean genotypes when grown in solution .....	61
Chen Z.H., Chen L.J., Zhang Y.L., Wu Z.J.: Microbial properties, enzyme activities and the persistence of exogenous proteins in soil under consecutive cultivation of transgenic cottons ( <i>Gossypium hirsutum</i> L.) .....	67
Ngole V.M.: Using soil heavy metal enrichment and mobility factors to determine potential uptake by vegetables .....	75
Hakl J., Fuksa P., Šantrůček J., Mášková K.: The development of lucerne root morphology traits under high initial stand density within a seven year period .....	81
Růžková M., Růžek L., Voříšek K., Vráblík P., Musilová D.: Microbiological characterization of land set-aside before and after Roundup desiccation .....	88
LIST OF ABBREVIATIONS .....	I
