

# Fisheries Management and Ecology

## Contents

### *Original Articles*

- 89 Age-based demographic assessment of fished stocks of *Lethrinus nebulosus* in the Gascoyne Bioregion of Western Australia  
*R. J. Marriott, D. J. Adams, N. D. C. Jarvis, M. J. Moran, S. J. Newman & M. Craine*
- 104 Identification and evaluation of shark bycatch in Georgia's commercial shrimp trawl fishery with implications for management  
*C. N. Belcher & C. A. Jennings*
- 113 Seasonal home range estimates and habitat selection of saugeye in a small warmwater impoundment  
*B. C. Neely, S. C. Dumont, R. L. Cole & M. A. Farooqi*
- 121 Using otolith increment widths to infer spatial, temporal and gender variation in the growth of sand whiting *Sillago ciliata*  
*J. Stocks, J. Stewart, C. A. Gray & R. J. West*
- 132 Hatchery rearing environment and age affect survival and movements of stocked juvenile lake sturgeon  
*J. A. Crossman, P. S. Forsythe, K. T. Scribner & E. A. Baker*
- 145 Population structure of the climbing perch, *Anabas testudineus*, in the lower Mekong River basin  
*A. P. Takagi, S. Ishikawa, T. Nao, S. Limsong, S. Hort, K. Thammavong, B. Saphakdy, A. Phomsouvanhm, M. Nishida & H. Kurokura*
- 154 Artificial reef placement: a red snapper, *Lutjanus campechanus*, ecosystem and fuzzy rule-based model  
*J. B. Shipley & J. H. Cowan Jr*
- 168 Evaluation of a stable-isotope labelling technique for mass marking fin rays of age-0 lake sturgeon  
*K. T. Smith & G. W. Whitley*
