

# European Journal of Plant Pathology

Contents Volume 130 No. 1 May 2011

- Molecular identification of a phytoplasma associated with Ajwain (*Trachyspermum ammi*) in India**  
A. Samad, S. Panda, M.K. Gupta, P.V. Ajayakumar and A.K. Shukla 1–4
- Haplotypes of “*Candidatus Liberibacter solanacearum*” suggest long-standing separation**  
W.R. Nelson, T.W. Fisher and J.E. Munyaneza 5–12
- Post infection application of DL-3-amino-butyric acid (BABA) induces multiple forms of resistance against *Bremia lactucae* in lettuce**  
Y. Cohen, A.E. Rubin and M. Vaknin 13–27
- Metabolomics technology to phenotype resistance in barley against *Gibberella zeae***  
G.K. Kumaraswamy, V. Bollina, A.C. Kushalappa, T.M. Choo, Y. Dion, S. Rioux, O. Mamer and D. Faubert 29–43
- Pathogenicity and reproductive fitness of *Pratylenchus coffeae* and *Radopholus arabocoffeae* on Arabica coffee seedlings (*Coffea arabica* cv. Catimor) in Vietnam**  
P.Q. Trinh, W.M.L. Wesemael, S.T.T. Nguyen, C.N. Nguyen and M. Moens 45–57
- Investigation of soilborne mosaic virus diseases transmitted by *Polymyxa graminis* in cereal production areas of the Anatolian part of Turkey**  
N.D. Kutluk Yilmaz, R.L. Lyons, M.J. Smith and K. Kanyuka 59–72
- Existing infection with *Rhynchosporium secalis* compromises the ability of barley to express induced resistance**  
D.R. Walters, L. Paterson, C. Sablou and D.J. Walsh 73–82
- Morphological and molecular analysis of genetic variability within isolates of *Corynespora cassicola* from different hosts**  
Y.-X. Qi, X. Zhang, J.-J. Pu, X.-M. Liu, Y. Lu, H. Zhang, H.-Q. Zhang, Y.-C. Lv and Y.-X. Xie 83–95
- Phytoplasmas infecting sour cherry and lilac represent two distinct lineages having close evolutionary affinities with clover phyllody phytoplasma**  
R. Jomantiene, Y. Zhao, I.-M. Lee and R.E. Davis 97–107
- Development of quantitative real-time RT-PCR for the detection and quantification of *Peach latent mosaic viroid***  
M. Luigi and F. Faggioli 109–116
- Impacts of climate change on wheat anthesis and fusarium ear blight in the UK**  
J.W. Madgwick, J.S. West, R.P. White, M.A. Semenov, J.A. Townsend, J.A. Turner and B.D.L. Fitt 117–131
