

<i>Landscape and Urban Planning</i> cover for 2011 P.H. Gobster (Evanston, IL, USA)	313
Special Issue: Landscape and Urban Planning at 100	
Editorial Introduction	
<i>Landscape and Urban Planning</i> at 100: Looking back moving forward P.H. Gobster (Evanston, IL, USA)	315
Theory and Critique	
Where have all the flowers gone? P. Jacobs (Montreal, Canada)	318
Care and stewardship: From home to planet J.I. Nassauer (Ann Arbor, MI, USA)	321
When landscape planning becomes landscape governance, what happens to the science? R. Beunen and P. Opdam (The Netherlands)	324
Evidence-based landscape architecture: The maturing of a profession R.D. Brown and R.C. Corry (Guelph, Canada)	327
Landscapes: Bridging the gaps between science, policy and people W.E. Dramstad and W.J. Fjellstad (Ås, Norway)	330
Foundations for Landscape and Urban Planning	
Landscape ecological urbanism: Origins and trajectories F. Steiner (Austin, TX, USA)	333
Landscape as resource: Consequences, challenges and opportunities for rural development G. Domon (Montreal, Canada)	338
From <i>fail-safe</i> to <i>safe-to-fail</i> : Sustainability and resilience in the new urban world J. Ahern (Amherst, USA)	341
Digging in the past: New conceptual models in landscape history and their relevance in peri-urban landscapes H. Palang (Tallinn, Estonia), T. Spek (Groningen, The Netherlands) and M. Stenseke (Göteborg, Sweden)	344
Misconceptions or misunderstandings? On the standardization of basic terms and definitions in urban ecology I. MacGregor-Fors (Xalapa, Mexico)	347
People-Landscape Interactions	
Anthropogenic/anthropogenerous: Creating environments that help people create better environments R. Kaplan and S. Kaplan (Ann Arbor, MI, USA)	350

(Contents continued on BM II)

(Contents continued from back cover)

Beyond the view: Future directions in landscape aesthetics research A. Jorgensen (Sheffield, UK)	353
The world's matrix of vegetation: Hunting the hidden dimension of landscape sustainability L.R. Musacchio (Minneapolis, MN, USA)	356
The social landscape of planning: Integrating social and perceptual research with spatial planning information R.L. Ryan (Amherst, MA, USA)	361
The role of courts in open space conservation: Lessons from the Israeli experience T. Maruani (Ramat-Gan, Israel)	364
Urban Ecology	
Conserving urban biodiversity? Creating green infrastructure is only the first step M. Hostetler (Gainesville, FL, USA), W. Allen (Christchurch, New Zealand) and C. Meurk (Lincoln, New Zealand)	369
Ameliorating the effects of climate change: Modifying microclimates through design R.D. Brown (Guelph, Canada)	372
Holistic research agenda for sustainable management and conservation of urban woodlands C.Y. Jim (Hong Kong)	375
Exotic plants and plantings in the sustainable, designed urban landscape J. Hitchmough (Sheffield, UK)	380
Merging wildlife community ecology with animal behavioral ecology for a better urban landscape planning J. Jokimäki, M.-L. Kaisanlahti-Jokimäki (Rovaniemi, Finland), J. Suhonen (Turku, Finland), P. Clergeau (Paris, France), M. Pautasso (Ascot, UK) and E. Fernández-Juricic (West Lafayette, IN, USA)	383
Integrated urban microclimate assessment method as a sustainable urban development and urban design tool N.H. Wong, S.K. Jusuf and C.L. Tan (Singapore)	386
Modeling and Visualization	
Landscape planning is not a game: Should it be? I.D. Bishop (Melbourne, Australia)	390
Emergence of bottom-up models as a tool for landscape simulation and planning X. Li (Guangzhou, PR China)	393
On the argumentative work of map-based visualisation A. Van Herzele (Brussels, Belgium) and C. van Woerkum (Wageningen, The Netherlands)	396
Challenges of forest landscape modeling—Simulating large landscapes and validating results H.S. He (Shenyang, China and Columbia, MO, USA), J. Yang, S.R. Shifley and F.R. Thompson (Columbia, MO, USA)	400
99 volumes later: We can visualise. Now what? E. Lange (Sheffield, UK)	403
Critical Issues	
Restore, repair or reinvent: Options for sustainable landscapes in a changing climate L. Seabrook, C.A. Mcalpine and M.E. Bowen (Brisbane, Australia)	407
Meeting the challenge of conserving Africa's biodiversity: The role of GIS, now and in the future R.D. Swetnam (Cambridge, UK) and B. Reyers (Stellenbosch, South Africa)	411
How vulnerable is the landscape when the typhoon comes? An emergy approach S.-L. Huang, L.-F. Chang and C.-T. Yeh (Taipei, Taiwan)	415
Meeting critical challenges and striving for urban sustainability in China W.-N. Xiang, R.M.B. Stuber and X. Meng (Shanghai, China and Charlotte, NC, USA)	418
Planning for the slow lane: The need to restore working greenspaces in maturing contexts M. Yokohari and J. Bolthouse (Chiba, Japan)	421
