

Research Articles

C. Callon, M. Saubusse, R. Didiene, S. Buchin and M.-C. Montel (France) Simplification of a complex microbial antilisterial consortium to evaluate the contribution of its flora in uncooked pressed cheese	379
C. Nueno-Palop and A. Narbad (UK) Probiotic assessment of <i>Enterococcus faecalis</i> CP58 isolated from human gut	390
C.G. Hardy, L.G. Lackey, J. Cannon, L.B. Price and E.K. Silbergeld (USA) Prevalence of potentially neuropathic <i>Campylobacter jejuni</i> strains on commercial broiler chicken products	395
N. Choriantopoulos, E. Giaouris, I. Grigoraki, P. Skandamis and G.-J. Nychas (Greece) Effect of acid tolerance response (ATR) on attachment of <i>Listeria monocytogenes</i> Scott A to stainless steel under extended exposure to acid or/and salt stress and resistance of sessile cells to subsequent strong acid challenge	400
H.-J. Koo and G.-J. Woo (Republic of Korea) Distribution and transferability of tetracycline resistance determinants in <i>Escherichia coli</i> isolated from meat and meat products	407
S. Somma, G. Pose, A. Pardo, G. Mulè, V.F. Pinto, A. Moretti and A.F. Logrieco (Italy, Argentina) AFLP variability, toxin production, and pathogenicity of <i>Alternaria</i> species from Argentinean tomato fruits and puree	414
A. Stals, L. Baert, A. De Keuckelaere, E. Van Coillie and M. Uyttendaele (Belgium) Evaluation of a norovirus detection methodology for ready-to-eat foods	420
A. García-Ruiz, M.V. Moreno-Arribas, P.J. Martín-Álvarez and B. Bartolomé (Spain) Comparative study of the inhibitory effects of wine polyphenols on the growth of enological lactic acid bacteria	426
A.A. Nisiotou, K. Rantsiou, V. Iliopoulos, L. Cocolin and G.-J.E. Nychas (Greece, Italy) Bacterial species associated with sound and <i>Botrytis</i> -infected grapes from a Greek vineyard	432
V. Fusco, G.M. Quero, G. Stea, M. Morea and A. Visconti (Italy) Novel PCR-based identification of <i>Weissella confusa</i> using an AFLP-derived marker	437
M.M. Reynoso, M.L. Ramirez, A.M. Torres and S.N. Chulze (Argentina) Trichothecene genotypes and chemotypes in <i>Fusarium graminearum</i> strains isolated from wheat in Argentina	444
M. Seitter (née Resch), C. Nerz, R. Rosenstein, F. Götz and C. Hertel (Germany) DNA microarray based detection of genes involved in safety and technologically relevant properties of food associated coagulase-negative staphylococci	449

(Contents continued on last page of this issue)

(Contents continued from outside back cover)

G. Chao, F. Wang, X. Zhou, X. Jiao, J. Huang, Z. Pan, L. Zhou and X. Qian (China) Origin of <i>Vibrio parahaemolyticus</i> O3:K6 pandemic clone	459
J. Tian, X. Ban, H. Zeng, J. He, B. Huang and Y. Wang (P.R. China) Chemical composition and antifungal activity of essential oil from <i>Cicuta virosa</i> L. var. <i>latisecta</i> Celak	464
I. Silva, F.M. Campos, T. Hogg and J.A. Couto (Portugal) Factors influencing the production of volatile phenols by wine lactic acid bacteria	471
S. Monfort, E. Gayán, S. Condón, J. Raso and I. Álvarez (Spain) Design of a combined process for the inactivation of <i>Salmonella</i> Enteritidis in liquid whole egg at 55 °C	476
Short Communications	
M. Seitter (née Resch), B. Geng and C. Hertel (Germany) Binding to extracellular matrix proteins and formation of biogenic amines by food-associated coagulase-negative staphylococci	483
V. Jasson, L. Baert and M. Uyttendaele (Belgium) Detection of low numbers of healthy and sub-lethally injured <i>Salmonella enterica</i> in chocolate	488
Errata	
U. Messelhäuser, J. Colditz, D. Thäringen, W. Kleih, C. Höller and U. Busch (Germany) Erratum to "Detection and differentiation of <i>Vibrio</i> spp. in seafood and fish samples with cultural and molecular methods" [Int. J. of Food Microbiol. 142 (2010) 360–364]	492
M. Opsteegh and J. van der Giessen (The Netherlands) Erratum to "Food-borne diseases – The challenges of 20 years ago still persist while new ones continue to emerge" [Int. J. Food Microbiol. 139 (Suppl 1) (2010) S3-S15]	493
Calendar	494
