

CONTENTS

Regular Paper

DOS SANTOS ZA, DA SILVA RJ, BACURAU RFP, TIRAPÉGUI J and RIBEIRO SML: Effect of Food Restriction and Intense Physical Training on Estrous Cyclicity and Plasma Leptin Concentrations in Rats. . . . .	1-8
KANEHIRA T, NAKAMURA Y, NAKAMURA K, HORIE K, HORIE N, FURUGORI K, SAUCHI Y and YOKOGOSHI H: Relieving Occupational Fatigue by Consumption of a Beverage Containing $\gamma$ -Amino Butyric Acid. . . . .	9-15
HORIKAWA Y, MATSUDA K, SAKATA SF and TAMAKI N: Decreased Preference for Sucrose in Rats Fed a Low Protein Diet and Its Intensification by Zinc-Deficiency. . . . .	16-21
TAGUCHI M, ISHIKAWA-TAKATA K, TATSUTA W, KATSURAGI C, USUI C, SAKAMOTO S and HIGUCHI M: Resting Energy Expenditure Can Be Assessed by Fat-Free Mass in Female Athletes Regardless of Body Size. . . . .	22-29
HIRA T, MURAMATSU M, OKUNO M and HARA H: GLP-1 Secretion in Response to Oral and Luminal Palatinose (Isomaltulose) in Rats . . . . .	30-35
UEDA Y, WANG M-F, IREI AV, SARUKURA N, SAKAI T and HSU T-F: Effect of Dietary Lipids on Longevity and Memory in the SAMP8 Mice. . . . .	36-41
NAKASHIMA Y: Zinc's Role in Rat Preference for a Low-Fat Diet in a Two-Choice Diet Program of Low- and High-Fat Diets. . . . .	42-47
TUJIOKA K, OHSUMI M, HAYASE K and YOKOGOSHI H: Effect of the Quality of Dietary Amino Acids Composition on the Urea Synthesis in Rats. . . . .	48-55
TAKAHASHI Y: Soy Protein and Fish Oil Independently Decrease Serum Lipid Concentrations but Interactively Reduce Hepatic Enzymatic Activity and Gene Expression Involved in Fatty Acid Synthesis in Rats. . . . .	56-64
MOCHIZUKI K, MIYAUCHI R, MISAKI Y, SHIMADA M, KASEZAWA T, TOHYAMA K and GODA T: Accumulation of Visceral Fat Is Positively Associated with Serum ALT and $\gamma$ -GTP Activities in Healthy and Preclinical Middle-Aged Japanese Men. . . . .	65-73
HASEGAWA A, USUI C, KAWANO H, SAKAMOTO S and HIGUCHI M: Characteristics of Body Composition and Resting Energy Expenditure in Lean Young Women. . . . .	74-79
JOO J-C, PARK J-H, KIM R-Y, JEON K-I, LEE H-J, SEO B-Y and PARK E: Effects of Puffer ( <i>Sphoeroides rubripes</i> ) Supplementation on Disruption of Antioxidant Defense Systems in Ethanol-Treated Rats. . . . .	80-86
MURAKAMI K, SASAKI S, TAKAHASHI Y, UENISHI K and the Japan Dietetic Students' Study for Nutrition and Biomarkers Group: Neighborhood Restaurant Availability and Frequency of Eating Out in Relation to Dietary Intake in Young Japanese Women . . . . .	87-94
SEO J-H, SUNG Y-H, KIM K-J, SHIN M-S, LEE E-K and KIM C-J: Effects of <i>Phellinus linteus</i> Administration on Serotonin Synthesis in the Brain and Expression of Monocarboxylate Transporters in the Muscle during Exhaustive Exercise in Rats . . . . .	95-103
YAZAWA K, SUGA K, HONMA A, SHIROSAKI M and KOYAMA T: Anti-Inflammatory Effects of Seeds of the Tropical Fruit Camu-Camu ( <i>Myrciaria dubia</i> ) . . . . .	104-107

Note

TAKITANI K, MIYAZAKI H, FUKUNISHI S, TAKAYA R, YODEN A, HIGUCHI K and TAMAI H: Altered Expression of Both $\beta$ -Carotene 15,15' Monooxygenase and Lecithin: Retinol Acyltransferase in Obese Zucker Rats. . . . .	108-113
ZHANG Y, KOBAYASHI H, MAWATARI K, SATO J, BAJOTTO G, KITaura Y and SHIMOMURA Y: Effects of Branched-Chain Amino Acid Supplementation on Plasma Concentrations of Free Amino Acids, Insulin, and Energy Substrates in Young Men. . . . .	114-117
CHANG Z-Q, GEBRU E, LEE S-P, RHEE M-H, KIM J-C, CHENG H and PARK S-C: In vitro Antioxidant and Anti-Inflammatory Activities of Protocatechualdehyde Isolated from <i>Phellinus gilvus</i> . . . . .	118-122
