

OBITUARY	147	The effects of supplementary bacterial phytase on dietary true metabolisable energy, nutrient digestibility and endogenous losses in precision fed turkeys. <i>V. Pirgozliev, M.R. Bedford, T. Acamovic and M. Allimehr.</i>	214
BEHAVIOUR, WELFARE, HUSBANDRY & ENVIRONMENT			
Reducing stress during welfare inspection: validation of a non-intrusive version of the LayWel plumage scoring system for laying hens. <i>J.B. Kjaer, H. Glawatz, B. Scholz, S. Rettenbacher and R. Tauson.</i>	149	Dietary L-arginine supplementation beneficially regulates body fat deposition of meat-type ducks. <i>L.Y. Wu, Y.J. Fang and X.Y. Guo.</i>	221
Isolation from predators: a key factor in the failed release of farmed red-legged partridges (<i>Alectoris rufa</i>) to the wild? <i>V.R. Gaudioso, J.A. Pérez, C. Sánchez-García, J.A. Armenteros, J.M. Lomillos and M.E. Alonso.</i>	155	Herbs, thyme essential oil and condensed tannin extracts as dietary supplements for broilers, and their effects on performance, digestibility, volatile fatty acids and organoleptic properties. <i>D.E. Cross, R.M. McDevitt and T. Acamovic.</i>	227
GENETICS			
Effect of daily feed intake in laying period on laying performance, egg quality and egg composition of genetically fat and lean lines of chickens. <i>F. Li, L.M. Xu, A.S. Shan, J.W. Hu, Y.Y. Zhang and Y.H. Li.</i>	163	Determination of the fourth and fifth limiting amino acids in broilers fed on diets containing maize, soybean meal and poultry by-product meal from 28 to 42 d of age. <i>W.A. Dozier III, A. Corzo, M.T. Kidd, P.B. Tillman and S.L. Branton.</i>	238
Genetic parameters of slaughter and carcass traits in Japanese quail (<i>Coturnix coturnix japonica</i>). <i>M. Sari, M. Tilki and M. Saatci.</i>	169	The effects of supplementary bacterial phytase on dietary energy and total tract amino acid digestibility when fed to young chickens. <i>V. Pirgozliev, M.R. Bedford, T. Acamovic, P. Mares and M. Allymehr.</i>	245
Feather keratin gene polymorphism (<i>F-KER</i>) in domestic pigeons. <i>A. Dybus and E. Haase.</i>	173	Effect of three mycotoxin adsorbents on growth performance, nutrient retention and meat quality in broilers fed on mould-contaminated feed. <i>Y.L. Liu, G.Q. Meng, H.R. Wang, H.L. Zhu, Y.Q. Hou, W.J. Wang and B.Y. Ding.</i>	255
MEAT AND EGG SCIENCE			
Are one early muscle pH and one early temperature measurement sufficient to detect PSE breast meat in turkeys? <i>S. Eadmusik, C. Molette, X. Fernandez and H. Rémygnon.</i>	177	PHYSIOLOGY, BIOCHEMISTRY & NEUROBIOLOGY	
<i>Post mortem</i> development of meat quality as related to changes in cytoskeletal proteins of chicken muscles. <i>J. Tomaszewska-Gras, F.J.G. Schreurs and J. Kijowski.</i>	189	Effect of maternal corticosterone on utilisation of residual yolk sac fatty acids by developing broiler embryo. <i>S. Yalçin, N. Bağdatlıoğlu and E. Babacanoğlu.</i>	264
NUTRITION			
Effect of reduced energy, protein and entire substitution of inorganic phosphorus by phytase on performance and bone mineralisation of laying hens. <i>Q.B. Lei, L.X. Shi, K.Y. Zhang, X.M. Ding, S.P. Bai and Y.G. Liu.</i>	202	Effects of metformin on plasma concentrations of glucose and mannose, G6Pase and PEPCK activity, and mRNA expression in the liver and kidney of chickens. <i>T. Sato, A. Toyoshima, T. Hiraki, Y. Ohta, K. Katayama, T. Arai and H. Tazaki.</i>	273
