Reviews

- 385 I. K. Toth, J. M. van der Wolf, G. Saddler, E. Lojkowska, V. Hélias, M. Pirhonen, L. Tsror (Lahkim) and J. G. Elphinstone
Dickeya species: an emerging problem for potato production in Europe
- 400 A. Lebeda and B. Mieslerová
Taxonomy, distribution and biology of lettuce powdery mildew (*Golovinomyces cichoracearum sensu stricto*)

Original Articles

- 416 A. M. Abarca-Grau, R. Penyalver, M. M. López and E. Marco-Noales
Pathogenic and non-pathogenic *Agrobacterium tumefaciens*, *A. rhizogenes* and *A. vitis* strains form biofilms on abiotic as well as on root surfaces
- 426 L. H. Hiltunen, M. Alanen, I. Laakso, A. Kangas, E. Virtanen and J. P. T. Valkonen
Elimination of common scab sensitive progeny from a potato breeding population using thaxtomin A as a selective agent
- 436 N. Kositcharoenkul, O. Chatchawankanphanich, A. Bhunchoth and W. Kositratana
Detection of *Xanthomonas citri* subsp. *citri* from field samples using single-tube nested PCR
- 443 S. Adikini, L. Tripathi, F. Beed, G. Tusiime, E. M. Magembe and D. J. Kim
Development of a specific molecular tool for detecting *Xanthomonas campestris* pv. *musacearum*
- 453 B. Cottyn, S. Baeyen, E. Pauwelyn, I. Verbaendert, P. De Vos, P. Bleyaert, M. Höfte and M. Maes
Development of a real-time PCR assay for *Pseudomonas cichorii*, the causal agent of midrib rot in greenhouse-grown lettuce, and its detection in irrigating water
- 462 W. J. McGavin, P. J. A. Cock and S. A. MacFarlane
Partial sequence and RT-PCR diagnostic test for the plant rhabdovirus Raspberry vein chlorosis virus
- 468 I. N. Boubourakas, A. E. Voloudakis, K. Fasseas, N. Resnick, H. Koltai and P. E. Kyriakopoulou
Cellular localization of Peach latent mosaic viroid in peach sections by liquid phase *in situ* RT-PCR
- 474 A. Chala, A. M. Tronsmo and M. B. Brurberg
Genetic differentiation and gene flow in *Colletotrichum sublineolum* in Ethiopia, the centre of origin and diversity of sorghum, as revealed by AFLP analysis
- 483 P. Talhinhos, C. Mota-Capitão, S. Martins, A. P. Ramos, J. Neves-Martins, L. Guerra-Guimarães, V. Várzea, M. C. Silva, S. Sreenivasaprasad and H. Oliveira
Epidemiology, histopathology and aetiology of olive anthracnose caused by *Colletotrichum acutatum* and *C. gloeosporioides* in Portugal
- 496 A. L. Hill, P. A. Reeves, R. L. Larson, A. L. Fenwick, L. E. Hanson and L. Panella
Genetic variability among isolates of *Fusarium oxysporum* from sugar beet

Contents continued on inside back cover

- 506 W. Yan, H. B. Li, S. B. Cai, H. X. Ma,
G. J. Rebetzke and C. J. Liu
Effects of plant height on type I and type II
resistance to fusarium head blight in wheat
- 513 A. Thirugnanasambandam, K. M. Wright,
S. D. Atkins, S. C. Whisson and A. C. Newton
Infection of *Rrs1* barley by an incompatible race of
the fungus *Rhynchosporium secalis* expressing the
green fluorescent protein
- 522 T. Caffi, V. Rossi, S. E. Legler and R. Bugiani
A mechanistic model simulating ascospore
infections by *Erysiphe necator*, the powdery
mildew fungus of grapevine
- 532 K. J. Evans, D. R. Gomez, M. K. Jones,
H. Oakey and R. T. Roush
Pathogenicity of *Phragmidium violaceum* isolates
on European blackberry clones and on leaves of
different ages
- 545 T. D. Harwood, I. Tomlinson, C. A. Potter
and J. D. Knight
Dutch elm disease revisited: past, present and
future management in Great Britain
- 556 D. Andrivon, J. Avendaño-Córcoles,
A. M. Cameron, S. F. Carnegie, L. R. Cooke,
R. Corbière, D. Detourné, L. J. Dowley,

A. Hannukkala, A. K. Lees, R. Lebecka,
F. Niepold, Z. Polgar, D. S. Shaw, J. Thompson,
B. Trognitz, H. M. G. van Raaij and
E. Zimnoch-Guzowska
Stability and variability of virulence of
Phytophthora infestans assessed in a ring test
across European laboratories
- 566 G. Peng, L. McGregor, R. Lahlali, B. D. Gossen,
S. F. Hwang, K. K. Adhikari, S. E. Strelkov
and M. R. McDonald
Potential biological control of clubroot on canola
and crucifer vegetable crops
- 575 C. Gutiérrez-Gutiérrez, J. E. Palomares-Rius,
R. M. Jiménez-Díaz and P. Castillo
Host suitability of *Vitis* rootstocks to root-knot
nematodes (*Meloidogyne* spp.) and the dagger
nematode *Xiphinema index*, and plant damage
caused by infections
- 586 I. M. Duarte, M. T. M. Almeida, M. M. Duarte,
D. J. F. Brown and R. Neilson
Molecular diagnosis of trichodorid species from
Portugal
