

- 1      **Preface**  
*Sunil Kumar*
- 2      **Research experiences in microwave-assisted chemical oxygen demand determination**  
*Ackmez Mudhoo and Sanjay K. Sharma*
- 9      **Modelling resorcinol adsorption in water environment using artificial neural network**  
*Ramhari Aghav and Somnath Mukherjee*
- 19     **Recycling of Basic Oxygen Furnace (BOF) sludge in iron and steel works**  
*A.K.P. Singh, M.T. Raju and Usha Jha*
- 33     **Phytoremediation of chromium(VI)-laden waste by *Eichhornia crassipes***  
*Gurdeep Singh and Alok Sinha*
- 43     **Physical methods in wastewater treatment**  
*Kavindra Kumar Kesari, Hriday N. Verma and Jitendra Behari*
- 67     **Effect of microwave temperature, intensity and moisture content on solubilisation of organic fraction of municipal solid waste**  
*Haleh Shahriari, Mostafa Warith and Kevin J. Kennedy*
- 84     **Assessment of treatment capabilities of Varthur Lake, Bangalore, India**  
*Durga Madhab Mahapatra, H.N. Chanakya and T.V. Ramachandra*
- 103    **Constructed wetland system for treating wastewater of scattered small industries: a case study of fermented fish production industry in Phayao City, Thailand**  
*Ranjith Perera and Suwasa Kantawanichkul*
- 115    **Adsorption of emulsified oil from spent metalworking fluid using agro-waste of *Cajanus cajan***  
*Sandeep Tiwari, Vimal K. Gupta, P.C. Pandey, H. Singh and P.K. Mishra*

- 132 **Biosorbent-assisted ceramic microfiltration process for treatment of herbal pharmaceutical wastewater with high organic loading**  
*Priyankari Bhattacharya, Sourja Ghosh, Swachchha Majumdar, Subrata Dasgupta and Sibdas Bandyopadhyay*
- 147 **Accumulation and mobility of heavy metals in fenugreek (*Trigonella foenum-graceum* L.) and tomato (*Lycopersicum esculentum* Mill.) grown in the field amended with urban wastes, and their composts and vermicomposts**  
*Swati Pattnaik and M. Vikram Reddy*
- 182 **Water quality improvement of industrial shrimp ponds**  
*Nguyen Thi My Xuan, Dang Vu Bich Hanh and Le Thi Hong Tran*
- 203 **Carbon credit from composting of municipal solid waste**  
*Ajay Bharti and Biswajit Saha*
- 220 **Swiss blue dye sequestration by adsorption using *Acacia nilotica* sawdust**  
*Monika Jain, Ackmez Mudhoo and Vinod Kumar Garg*
- 238 **Comparative assessment of anaerobic digestion of municipal solid waste at mesophilic and thermophilic temperatures**  
*Dinesh Surroop and Romeela Mohee*
- 252 **Effect of cycle period and substrate composition on phosphorous removal potential of a laboratory-scale sequencing batch reactor**  
*Gargi Biswas, Anupam Debsarkar, Somnath Mukherjee, Siddhartha Datta, Sunil Kumar and Ackmez Mudhoo*
- 269 **Predicting the site water balance of a phytocapped landfill using HYDRUS 1D**  
*Kartik Venkatraman, Nanjappa Ashwath and Ninghu Su*
- 282 **Biosorptive uptake of cationic dyes from aqueous phase using immobilised dead macro fungal biomass**  
*N.S. Maurya and A.K. Mittal*
- 294 **A model for assessment of energy utilisation within an urban centre**  
*P.A. Jayasinghe, A.K. Mehrotra and J.P.A. Hettiaratchi*
- 310 **Solid waste management in Patna – analyses of ambient air and ground water pollution**  
*Kanchan Kumari, Nitish Ranjan and R.C. Sinha*

- 326 **Kinetic evaluation for aerobic biodegradation of resorcinol in a batch reactor**  
*Sudipta Dey, Somnath Mukherjee and Sunil Kumar*
- 339 **Review on potential for waste recycled based bioenergy for marine system**  
*O.O. Sulaiman, A.S. Abd Kader, A.H. Saharuddin, W.B. Wan Nik and K.B. Samo*
- 358 **Utilisation of waste in integrated sugar distillery industry with special reference to bio-energy generation: a case study**  
*Bipasha Dinda and Sundeep*
