

CONTENTS

VOLUME 22, ISSUE No. 4

June 2011

Considering covariates in the covariance structure of spatial processes <i>A. M. Schmidt, P. Guttorp and A. O'Hagan</i>	487
Estimating parameters for a stochastic dynamic marine ecological system <i>M. Dowd</i>	501
A determination coefficient for a linear regression model with imprecise response <i>M. B. Ferraro, A. Colubi, G. González-Rodríguez and R. Coppi</i>	516
Adjustment of state space models in view of area rainfall estimation <i>M. Costa and T. Alpuim</i>	530
A stochastic model for the environmental transnational pollution control problem <i>O. J. Casas and R. Romera</i>	541
On the use of a PM _{2.5} exposure simulator to explain birthweight <i>V. J. Berrocal, A. E. Gelfand, D. M. Holland, J. Burke and M. L. Miranda</i>	553
Mixed deterministic statistical modelling of regional ozone air pollution <i>S. Kalenderski and D. G. Steyn</i>	572
Species abundance and diversity index estimation in point transect sampling using composite approach <i>L. Fattorini, M. Giordano, M. Marcheselli and A. Meriggi</i>	587
