## Review Articles

- Yahdjian, L., Gherardi, L. & Sala, O.E. Nitrogen limitation in arid-subhumid ecosystems: A meta-analysis of fertilization studies ..... 675
- Stahlschmidt, Z.R., DeNardo, D.F., Holland, J.N., Kotler, B.P. & Kruse-Peeples, M. Tolerance mechanisms in North American deserts: Biological and societal approaches to climate change ..... 681
- 

## Botany

- Dennett, A.L., Burgess, L.W., McGee, P.A. & Ryder, M.H. Arbuscular mycorrhizal associations in *Solanum centrale* (bush tomato), a perennial sub-shrub from the arid zone of Australia. .... 688
- Tilahun, M., Muys, B., Mathijs, E., Kleinn, C., Olschewski, R. & Gebrehiwot, K. Frankincense yield assessment and modeling in closed and grazed *Boswellia papyrifera* woodlands of Tigray, Northern Ethiopia. .... 695
- 

## Zoology

- Carrara, R., Vázquez, D.P. & Flores, G.E. Habitat specificity can blur the predictions of species–energy theory: A case study of tenebrionid beetles adapted to aridity ..... 703
- 

## Landscape

- Miehe, G., Miehe, S., Bach, K., Nölling, J., Hanspach, J., Reudenbach, C., Kaiser, K., Wesche, K., Mosbrugger, V., Yang, Y.P. & Ma, Y.M. Plant communities of central Tibetan pastures in the Alpine Steppe/*Kobresia pygmaea* ecotone ..... 711
- Groen, T.A., van Langevelde, F., van de Vijver, C.A.D.M., de Raad, A.L., de Leeuw, J. & Prins, H.H.T. A continental analysis of correlations between tree patterns in African savannas and human and environmental variables ..... 724
- Boyd, C.S. & Svejcar, T.J. The influence of plant removal on succession in Wyoming big sagebrush ..... 734
- 

## Palaeoenvironments

- Sancho, C., Muñoz, A., González-Sampéris, P. & Cinta Osácar, M. Palaeoenvironmental interpretation of Late Pleistocene–Holocene morphosedimentary record in the Valsalada saline wetlands (Central Ebro Basin, NE Spain) ..... 742
- 

## Short Communication

- Merino, M.L., Semeñiuk, M.B. & Fa, J.E. Effect of cattle breeding on habitat use of Pampas deer *Ozotoceros bezoarticus celer* in semiarid grasslands of San Luis, Argentina. .... 752
