**Special Issue: Listeria Regulation**

- 1477 Editorial  
E.C.D. TODD (USA)
- 1482 The Codex Alimentarius guidelines on the application of general principles of food hygiene to the control of *Listeria monocytogenes* in ready-to-eat foods  
P. LUBER (Germany)
- 1484 Surveillance of listeriosis and its causative pathogen, *Listeria monocytogenes*  
E.C.D. TODD (USA) & S. NOTERMANS (Netherlands)
- 1491 Application of EC regulation no. 2073/2005 regarding *Listeria monocytogenes* in ready-to-eat foods in retail and catering sectors in Europe  
C. DUFOUR (France)
- 1495 The challenge of setting risk-based microbiological criteria for *Listeria monocytogenes*  
J.K. ANDERSEN & B. NØRRUNG (Denmark)
- 1498 The determination of ready-to-eat foods into *Listeria monocytogenes* growth and no growth categories by challenge tests  
A. BEAUFORT (France)
- 1503 The potential for third party standards at manufacturing and retail to reduce the risk of listeriosis arising from consumption of *Listeria monocytogenes* from ready-to-eat foods  
A. WINKLER (Germany) & M. FREUND (USA)
- 1506 Changing regulation: Canada's new thinking on *Listeria*  
J.M. FARBER, G.K. KOZAK & S. DUQUETTE (Canada)
- 1510 Recent Experiences with *Listeria monocytogenes* in New Zealand and development of a food control risk-based strategy  
S.K. CRERAR, M. CASTLE, S. HASSEL & D. SCHUMACHER (New Zealand)
- 1513 The international risk governance council framework and its application to *Listeria monocytogenes* in soft cheese made from unpasteurised milk  
E.C.D. TODD (USA)
- 1525 What risk assessments can tell us about setting criteria  
R.C. WHITING (USA)
- 1529 Communicating risk to consumers in domestic and internationally traded products  
A.P. BENSON (USA)
- 1535 Controlling *Listeria monocytogenes* in ready-to-eat foods: Working towards global scientific consensus and harmonization – Recommendations for improved prevention and control  
P. LUBER (Germany), S. CRERAR (Australia), C. DUFOUR (France), J. FARBER (Canada), A. DATTA & E.C.D. TODD (USA)
