

(Abstracted/Indexed in: AGI's Bibliography and Index of Geology; Biological Abstracts; Biosis; Bulletin Signalétique; Chemical Abstracts/CAS; Current Contents/Agriculture, Biology & Environmental Sciences; Elsevier BIOBASE/Current Awareness in Biological Sciences; Environmental Periodicals Bibliography; Embiology; GEOBASE; Irrigation, Drainage Abstracts; PASCAL; Science Citation Index; SciSearch; Soils and Fertilizers). Also covered in the abstract and citation database Scopus®. Full text available on ScienceDirect®.

Research papers

Evaluating the effect of tillage on soil structural properties using the pedostructure concept J.J. Mallory, R.H. Mohtar, G.C. Heathman, D.G. Schulze and E. Braudeau	141
Confronting uncertainty in model-based geostatistics using Markov Chain Monte Carlo simulation B. Minasny, J.A. Vrugt and A.B. McBratney	150
Evaluation of soil water content in tilled and cover-cropped olive orchards by the geoelectrical technique G. Celano, A.M. Palese, A. Ciucci, E. Martorella, N. Vignozzi and C. Xiloyannis	163
Changes in soil respiration Q_{10} during drying–rewetting along a semi-arid elevation gradient A. Chatterjee and G.D. Jenerette	171
Oxygen and hydrogen isotopes in pedogenic minerals — Implications for paleoclimate evolution in Amazonia during the Cenozoic A.M.C. Horbe	178
Pedogenesis, soil mass balance, phosphorus dynamics and vegetation communities across a Holocene soil chronosequence in a super-humid climate, South Westland, New Zealand A. Eger, P.C. Almond and L.M. Condron	185
Stable soil organic matter: A comparison of C:N:P:S ratios in Australian and other world soils C.A. Kirkby, J.A. Kirkegaard, A.E. Richardson, L.J. Wade, C. Blanchard and G. Batten	197
Evaluation of soil quality identified by local farmers in Mai-Negus catchment, northern Ethiopia G.B. Tesfahunegn, L. Tamene and P.L.G. Vlek	209
Environmental significance of mineral weathering and pedogenesis of loess on the southernmost Loess Plateau, China C. Huang, W. Zhao, F. Liu, W. Tan and L.K. Koopal	219
Applying blind source separation on hyperspectral data for clay content estimation over partially vegetated surfaces W. Ouerghemmi, C. Gomez, S. Naceur and P. Lagacherie	227
Surface shading effects on soil C loss in a temperate muck soil M.J. Taggart, J.L. Heitman, M.J. Vepraskas and M.R. Burchell.	238
Surface chemistry variations among a series of laboratory-produced biochars A. Mukherjee, A.R. Zimmerman and W. Harris	247
Relating soil microbial activity to water content and tillage-induced differences in soil structure P. Schjønning, I.K. Thomsen, S.O. Petersen, K. Kristensen and B.T. Christensen	256
Revisiting ferrolysis processes in the formation of Planosols for rationalizing the soils with stagnic properties in WRB E. Van Ranst, M. Dumon, A.R. Tolossa, J.-T. Cornelis, G. Stoops, R.E. Vandenberghe and J. Deckers	265
Assessing how heavy metal pollution and human activity are related by using logistic regression and kriging methods Y.-P. Lin, B.-Y. Cheng, H.-J. Chu, T.-K. Chang and H.-L. Yu.	275

(continued from back cover)

Changes in soil structure following passage of a tracked heavy machine

A. Alaoui and E. Diserens 283

Short communication

Applicability of selective dissolution of manganese oxide by acidified 0.1 M NH_2OHHCl in Japanese soils

A. Suda, T. Makino and T. Higashi 291
