

CONTENTS

AGRICULTURAL ECONOMICS

A Case Study Investigating Farmers' View Regarding Soil Analysis: Estimates Using a Logit Model.

O. Karkacier, and Z. Gokalp Goktolga

467

Economic Optimal Allocation of Agriculture Water: Mathematical Programming Approach.

A. Keramatzadeh, A. H. Chizari, and R. Moore

477

AGRICULTURAL EXTENSION AND EDUCATION

Factors Influencing Knowledge Sharing among Personnel of Agricultural Extension and Education Organization in Iranian Ministry of Jihad-e Agriculture.

Gh. Pezeshki Rad, N. Alizadeh, N. Zamani Miandashti, H. Shabanali Fami

491

AGRICULTURAL MACHINERY

Design, Construction and Evaluation of a Fan Speed Controller in a Forced Convection SOLAR Dryer to Optimize the Overall Energy Efficiency.

N. Bagheri, A. Keyhani, S. S. Mohtasebi, R. Alimardani, S. Rafiee, and G. H. Mansoori

503

Nondestructive Determination of Tomato Fruit Quality Parameters Using Raman Spectroscopy.

A. M. Nikbakht, T. Tavakkoli Hashjin, R. Malekfar, and B. Gobadian

517

ANIMAL SCIENCE

Effect of the Three Herbal Extracts on Growth Performance, Immune System, Blood Factors and Intestinal Selected Bacterial Population in Broiler Chickens.

S. Rahimi, Z. Teymouri Zadeh, M. A. Karimi Torshizi, R. Omidbaigi, and H. Rokni

527

Standardized Ileal Digestible Threonine Requirements and Its Effects on Performance and Gut Morphology of Broiler Chicks Fed Two Levels of Protein.

M. Zaghari, F. Zaefarian, and M. Shivazad

541

FOOD SCIENCE

Identification of Fatty Acid in Mackerel (*Scomberomorus commersoni*) and Shark (*Carcharhinus dussumieri*) Fillets and Their Changes during Six Month of Frozen Storage at -18°C.

S. Nazemroaya, M. A. Sahari, and M. Rezaei

553

Influence of *Withania coagulans* Protease as a Vegetable Rennet on Proteolysis of Iranian UF White Cheese.

A. Pezeshki, J. Hesari, A. Ahmadi Zonoz, and B. Ghambarzadeh

567

Continued from front cover:

FOOD SCIENCE

In-house Production of Lactose-hydrolysed Milk by Beta-galactosidase from *Lactobacillus bulgaricus*.

A. Jokar and A. Karbasi

577

Microbiological and Physicochemical Properties of Pecorino Romano Cheese Produced Using a Selected Starter Culture.

N. P. Mangia, M. A. Murgia, G. Garau, and P. Deiana

585

HORTICULTURAL SCIENCE

The Physiological Response of Three Iranian Grape Cultivars to Progressive Drought Stress.

N. Ghaderi, A. R. Talaie, A. Ebadi, and H. Lessani

601

Total Oxalate-Soluble Pectin Concentration in Asian Pear (*Pyrus serotina* Rehd) Fruit in Relation to Ripening, Storage and Internal Browning Disorder.

K. Arzani, H. Khoshghalb, M. J. Malakouti, and M. Barzegar

611

IRRIGATION AND DRAINAGE

Predicting Dryland Wheat Yield from Meteorological Data Using Expert System, Khorasan Province, Iran.

A. Khashei-Siuki, M. Kouchakzadeh, and B. Ghahraman

627
