## Volume 57, Issue 1, August 2011

All cravings are not created equal. Correlates of menstrual versus non-cyclic chocolate craving <b>J.M. Hormes and C.A. Timko</b> .....	1-5
Comparison of sensory specific satiety and sensory specific desires to eat in children and adults <b>A. Olsen, C. Ritz, D.L. Hartvig and P. Møller</b> .....	6-13
Hospital catering systems and their impact on the sensorial profile of foods provided to older patients in the UK <b>Y. Mavrommatis, P.J. Moynihan, M.A. Gosney and L. Methven</b> .....	14-20
Effects of neuromedin- $\beta$ on caloric compensation, eating behaviours and habitual food intake <b>R. Blanchet, S. Lemieux, P. Couture, L. Bouchard, M.-C. Vohl and L. Pérusse</b> .....	21-27
Lifestyle segmentation of US food shoppers to examine organic and local food consumption <b>C. Nie and L. Zepeda</b> .....	28-37
Feasibility of measuring gastric emptying time, with a wireless motility device, after subjects consume fiber-matched liquid and solid breakfasts <b>H.J. Willis, W. Thomas, D.J. Willis and J.L. Slavin</b> .....	38-44
Effects of energy conditioning on food preferences and choice <b>E.H. Zandstra and W. El-Deredy</b> .....	45-49
Which perceived characteristics make product innovations appealing to the consumer? A study on the acceptance of fruit innovations using cross-cultural consumer segmentation <b>M.C. Onwezen and J. Bartels</b> .....	50-58
Healthy eating behaviors and the cognitive environment are positively associated in low-income households with young children <b>J.R. Pieper and S.E. Whaley</b> .....	59-64
An fMRI study of obesity, food reward, and perceived caloric density. Does a low-fat label make food less appealing? <b>J. Ng, E. Stice, S. Yokum and C. Bohon</b> .....	65-72
The impact of eating behavior on psychological symptoms typical of reactive hypoglycemia. A pilot study comparing women with polycystic ovary syndrome to controls <b>John A. Barry, P. Bouloux and Paul J. Hardiman</b> .....	73-76
Does meal duration predict amount consumed in lone diners? An evaluation of the time-extension hypothesis <b>E. Brindal, C. Wilson, P. Mohr and G. Wittert</b> .....	77-79
Omega-3 fatty acids. What consumers need to know <b>A. McManus, M. Merga and W. Newton</b> .....	80-83
Effects of red wine on the electrical activity and functional coupling between prefrontal-parietal cortices in young men <b>A. Sanz-Martin, M.Á. Guevara, C. Amezcua, G. Santana and M. Hernández-González</b> .....	84-93

Food choice questionnaire revisited in four countries. Does it still measure the same? <b>R. Januszewska, Z. Pieniak and W. Verbeke</b> .....	94–98
Social modeling of food purchases at supermarkets in teenage girls <b>K.F. Bevelander, D.J. Anschutz and R.C.M.E. Engels</b> .....	99–104
Celiac disease. Following the diet and eating habits of participating individuals in the Federal District, Brazil <b>H.M.C. Araújo and W.M.C. Araújo</b> .....	105–109
Consumers' acceptance of innovations in traditional cheese. A comparative study in France and Norway <b>V.L. Almli, T. Næs, G. Enderli, C. Sulmont-Rossé, S. Issanchou and M. Hersleth</b> .....	110–120
Influence of ethnocentrism and neo-phobia on ethnic food consumption in Spain <b>D.M. Camarena, A.I. Sanjuán and G. Philippidis</b> .....	121–130
Appetizer administration stimulates food consumption, weight gain and leptin levels in male Wistar rats <b>D.D. Wadikar and K.S. Premavalli</b> .....	131–133
Influence of substrate oxidation on the reward system, no role of dietary fibre <b>P. Touyrou, C. Sulmont-Rossé, S. Issanchou, R. Despalins and L. Brondel</b> .....	134–141
Perceptual and lexical knowledge of vegetables in preadolescent children <b>D. Morizet, L. Depezay, P. Masse, P. Combris and A. Giboreau</b> .....	142–147
Front-of-pack nutrition labels. Their effect on attention and choices when consumers have varying goals and time constraints <b>E. van Herpen and H.C.M.v. Trijp</b> .....	148–160
Parental practices perceived by children using a French version of the Kids' Child Feeding Questionnaire <b>S. Monnery-Patris, N. Rigal, C. Chabanet, V. Boggio, C. Lange, D.A. Cassuto and S. Issanchou</b> .....	161–166
Maternal feeding practices predict fruit and vegetable consumption in young children. Results of a 12-month longitudinal study <b>J.E. Gregory, S.J. Paxton and A.M. Brozovic</b> .....	167–172
Replacing craving imagery with alternative pleasant imagery reduces craving intensity <b>B. Knäuper, R. Pillay, J. Lacaille, A. McCollam and E. Kelso</b> .....	173–178
Retrospective longitudinal study on the relationship between 8-year weight change and current eating speed <b>S. Tanihara, T. Imatoh, M. Miyazaki, A. Babazono, Y. Momose, M. Baba, Y. Uryu and H. Une</b> .....	179–183
Influence of simplified nutrition labeling and taxation on laboratory energy intake in adults <b>J.L. Temple, K.M. Johnson, K. Archer, A. LaCarte, C. Yi and L.H. Epstein</b> .....	184–192
The effect of categorization as food on the perceived moral standing of animals <b>B. Bratanova, S. Loughnan and B. Bastian</b> .....	193–196
Product samples stimulate choice of unfamiliar healthful food products <b>B. Schickenberg, P. van Assema, J. Brug and N.K. de Vries</b> .....	197–201
Focusing on food during lunch enhances lunch memory and decreases later snack intake <b>S. Higgs and J.E. Donohoe</b> .....	202–206
Peak and end effects on remembered enjoyment of eating in low and high restrained eaters <b>E. Robinson, J. Blissett and S. Higgs</b> .....	207–212
Serving large portions of vegetable soup at the start of a meal affected children's energy and vegetable intake <b>M.K. Spill, L.L. Birch, L.S. Roe and B.J. Rolls</b> .....	213–219
It's who I am and what we eat. Mothers' food-related identities in family food choice <b>C.M. Johnson, J.R. Sharkey, W.R. Dean, W. Alex McIntosh and K.S. Kubena</b> .....	220–228
Validation of an instrument to assess toddler feeding practices of Latino mothers <b>V. Chaidez and L.L. Kaiser</b> .....	229–236
Taste perception and implicit attitude toward sweet related to body mass index and soft drink supplementation <b>F. Sartor, L.F. Donaldson, D.A. Markland, H. Loveday, M.J. Jackson and H.-P. Kubis</b> .....	237–246
Caffeine ingestion, affect and perceived exertion during prolonged cycling <b>S.H. Backhouse, S.J.H. Biddle, N.C. Bishop and C. Williams</b> .....	247–252
The joint moderating effect of health consciousness and healthy lifestyle on consumers' willingness to use functional foods in Taiwan <b>M.-F. Chen</b> .....	253–262
Cognitive deficits in obese persons with and without binge eating disorder. Investigation using a mental flexibility task <b>O. Mobbs, K. Iglesias, A. Golay and M. Van der Linden</b> .....	263–271
Compliance with Mediterranean Diet Quality Index (KIDMED) and nutrition knowledge levels in adolescents. A case study from Turkey <b>S.A. Sahingoz and N. Sanlier</b> .....	272–277
Presence of metabolic syndrome and cardiovascular risk factors in adolescents and University students in Crete (Greece), according to different levels of snack consumption <b>A. Vergetaki, M. Linardakis, A. Papadaki and A. Kafatos</b> .....	278–285
"You Say it's Liking, I Say it's Wanting ...". On the difficulty of disentangling food reward in man <b>R.C. Havermans</b> .....	286–294
Does prolonged chewing reduce food intake? Fletcherism revisited <b>H. Jan Smit, E. Katherine Kemsley, Henri S. Tapp and C. Jeya K. Henry</b> .....	295–298
A cafeteria-based tasting program increased liking of fruits and vegetables by lower, middle and upper elementary school-age children <b>A. Lakkakula, J.P. Geaghan, W.-P. Wong, M. Zanovec, S.H. Pierce and G. Tuuri</b> .....	299–302
Herbal-caffeinated chewing gum, but not bubble gum, improves aspects of memory <b>M.G. Davidson</b> .....	303–307
Calendar .....	308
Affiliated Societies .....	309
