

**Reviews**

- S. Koster, A. R. Boobis, R. Cubberley, H. M. Hollnagel, E. Richling, T. Wildemann, G. Würtzen and C. L. Galli* 1643–1660 Application of the TTC concept to unknown substances found in analysis of foods
- A. L. Rowbotham and R. M. Gibson* 1661–1673 Exposure-driven risk assessment: Applying exposure-based waiving of toxicity tests under REACH

**Research papers**

- D. Gradecka-Meesters, J. Palus, G. Prochazka, D. Segerbäck, E. Dziubaltowska, N. Kotova, D. Jenssen, J. Arkusz, C. Lundin, E. Vikström, K. Rydzyński, R. Nilsson and M. Stepnik* 1674–1683 Assessment of the protective effects of selected dietary anticarcinogens against DNA damage and cytogenetic effects induced by benzo[a]pyrene in C57BL/6J mice
- K. G. McAdam, E. O. Gregg, C. Liu, D. J. Dittrich, M. G. Duke and C. J. Proctor* 1684–1696 The use of a novel tobacco-substitute sheet and smoke dilution to reduce toxicant yields in cigarette smoke
- F. Yu, S. Hao, Y. Zhao, H. Yang, X.-l. Fan and J. Yang* 1697–1704 *In utero* and lactational  $\beta$ -carotene supplementation attenuates D-galactose-induced hearing loss in newborn rats
- Y.-L. Zhao, G.-D. Zhou, H.-B. Yang, J.-B. Wang, L.-M. Shan, R.-s. Li and X.-H. Xiao* 1705–1710 Rhein protects against acetaminophen-induced hepatic and renal toxicity
- M.-C. Huang, J. T. Brenna, P.-Y. Sun, W.-T. Chang, H.-C. Hung, H.-R. Chao and S.-L. Wang* 1711–1717 Placental docosahexaenoic and arachidonic acids correlate weakly with placental polychlorinated dibenzofurans (PCDF) and are uncorrelated with polychlorinated dibenzo-*p*-dioxins (PCDD) or polychlorinated biphenyls (PCB) at delivery: A pilot study
- J.-P. Liu, D. Lu, R. C. Nicholson, P.-Y. Li and F. Wang* 1718–1727 Toxicity of a novel anti-tumor agent 20(*S*)-ginsenoside Rg3: A 26-week intramuscular repeated administration study in Beagle dogs
- Y. Tian, B. Zou, L. Yang, S.-f. Xu, J. Yang, P. Yao and C.-m. Li* 1728–1736 High molecular weight persimmon tannin ameliorates cognition deficits and attenuates oxidative damage in senescent mice induced by D-galactose
- J.-H. Cho, J.-G. Lee, Y.-I. Yang, J.-H. Kim, J.-H. Ahn, N.-I. Baek, K.-T. Lee and J.-H. Choi* 1737–1744 Eupatilin, a dietary flavonoid, induces G2/M cell cycle arrest in human endometrial cancer cells
- H. Y. Park, M. H. Han, C. Park, C.-Y. Jin, G.-Y. Kim, I.-W. Choi, N. D. Kim, T.-J. Nam, T. K. Kwon and Y. H. Choi* 1745–1752 Anti-inflammatory effects of fucoidan through inhibition of NF- $\kappa$ B, MAPK and Akt activation in lipopolysaccharide-induced BV2 microglia cells

(Contents continued from outside back cover)
