Toju H

Weevils and camellias in a Darwin's race: model system for the study of eco-evolutionary interactions between species 239

■ Original Articles

Luo T, Li M, Luo J

Seasonal variations in leaf  $\delta^{13}\text{C}$  and nitrogen associated with foliage turnover and carbon gain for a wet subalpine fir forest in the Gongga Mountains, eastern Tibetan Plateau 253

Rayé G, Miquel C, Coissac E, Redjadj C, Loison A, Taberlet P

New insights on diet variability revealed by DNA barcoding and high-throughput pyrosequencing: chamois diet in autumn as a case study 265

Sabino-Marques H, Mira A

Living on the verge: are roads a more suitable refuge for small mammals than streams in Mediterranean pastureland? 277

Hirata M, Ogura S, Furuse M

Fine-scale spatial distribution of herbage mass, herbage consumption and fecal deposition by cattle in a pasture under intensive rotational grazing 289

Naoe S, Sakai S, Sawa A, Masaki T

Seasonal difference in the effects of fragmentation on seed dispersal by birds in Japanese temperate forests 301

Mitsuo Y, Tsunoda H, Ohira M, Doi M, Senga Y

Nested subset patterns of species composition in a pond-dwelling fish fauna 311

Suzuki M

Effects of the topographic niche differentiation on the coexistence of major and minor species in a species-rich temperate forest 317

Harano T

Inbreeding depression in development, survival, and reproduction in the adzuki bean beetle (*Callosobruchus chinensis*) 327

Sun G-Q, Jin Z, Song L-P, Chakraborty A, Li B-L

Phase transition in spatial epidemics using cellular automata with noise 333

Martínez-Falcón AP, Ángeles Marcos-García Ma, Moreno CE

Temporal shifts and niche overlapping in *Copestylum* (Diptera, Syrphidae) communities reared in cactus species in a central Mexican scrubland 341

Song L, Liu W, Ma W, Tan Z

Bole epiphytic bryophytes on *Lithocarpus xylocarpus* (Kurz) Markgr. in the Ailao Mountains, SW China 351

Gaugris JY, van Rooyen MW

The effect of herbivores and humans on the Sand Forest species of Maputaland, northern KwaZulu-Natal, South Africa 365

Zhang Y, Adams J, Zhao D

Does insect folivory vary with latitude among temperate deciduous forests? 377

Li C, Li Y, Ma J

Spatial heterogeneity of soil chemical properties at fine scales induced by *Haloxylon ammodendron* (Chenopodiaceae) plants in a sandy desert 385

Li H, Lei G, Zhi Y, Bridgewater P, Zhao L, Wang Y, Deng Z, Liu Y, Liu F, An S

Phenotypic responses of *Spartina anglica* to duration of tidal immersion 395

Xing X, Guo S

Fungal endophyte communities in four Rhizophoraceae mangrove species on the south coast of China 403

Okada K, Okada S, Yasue K, Fukuda M, Yamada A

Six-year monitoring of pine ectomycorrhizal biomass under a temperate monsoon climate indicates significant annual fluctuations in relation to climatic factors 411

Meng M, Ni J, Zong M

Impacts of changes in climate variability on regional vegetation in China: NDVI-based analysis from 1982 to 2000 421

Sankamethawee W, Pierce AJ, Hardesty BD, Gale GA

Seasonal variability in survivorship of a cooperatively breeding tropical passerine 429

Feng W, Schaefer DA, Zou X, Zhang M

Shifting sources of soil labile organic carbon after termination of plant carbon inputs in a subtropical moist forest of southwest China 437

Rosalino LM, Ferreira D, Leitão I, Santos-Reis M

Selection of nest sites by wood mice *Apodemus sylvaticus* in a Mediterranean agro-forest landscape 445

Zheng G, Li P, Pemberton R, Luo Y

Mixed bumblebee and blowfly pollination of *Cypripedium flavum* (Orchidaceae) in Sichuan, China 453

Petit S

Effects of mixed-species pollen load on fruits, seeds, and seedlings of two sympatric columnar cactus species 461

■ Note and Comment

Kamo T, Tokuoka Y

Influence of the prey aphid *Uroleucon nigrotuberculatum* parasitizing *Solidago canadensis* on the larval and adult survivorship of the predatory ladybird beetle *Harmonia axyridis* 471
