

ORIGINAL PAPERS

Evaluation of endophytic bacterial strains as antagonists of take-all in wheat caused by *Gaeumannomyces graminis* var. *tritici* in greenhouse and field

B. Liu · L. Huang · Z. Kang · H. Buchenauer 257

Behavioral response of Norway rats (*Rattus norvegicus*) to odors of different mammalian species

B. Yin · H. Fan · S. Li · I. Hegab · G. Lu · W. Wei 265

Stable fly (*Stomoxys calcitrans*) and house fly (*Musca domestica*) densities: a comparison of three monitoring methods on pig farms

T. Birkemoe · A. Sverdrup-Thygeson 273

Mulch type and moisture level affect pupation depth of *Rhagoletis mendax* Curran (Diptera: Tephritidae) in the laboratory

J.M. Renkema · G.C. Cutler · D.H. Lynch · K. MacKenzie · S.J. Walde 281

Population dynamics, phenology, and overwintering of *Bactrocera dorsalis* (Diptera: Tephritidae) in Hubei Province, China

P. Han · X. Wang · C.-Y. Niu · Y.-C. Dong · J.-Q. Zhu · N. Desneux 289

Aggregation, abundance and dispersal capabilities of *Otiorhynchus rugosostriatus* Goeze and *Otiorhynchus raucus* Fabricius (Coleoptera: Curculionidae) in plantations of ornamental plants

A. Reineke · J. Hirsch · G. Kubach 297

Determining suitability of thermal development models to estimate temperature parameters for embryonic development of *Sitona lepidus* Gyll. (Coleoptera: Curculionidae)

A. Arbab · M.R. McNeill 303

Performance of four *Trichogramma* species (Hymenoptera: Trichogrammatidae) as biocontrol agents of *Heliothis virescens* (Lepidoptera: Noctuidae) under various temperature regimes

G.S. Andrade · D. Pratisoli · L.P. Dalvi · N. Desneux · H.J.G. dos Santos Junior 313

Control of a new turf pest, *Dorcadion pseudopreissi* (Coleoptera: Cerambycidae), with the entomopathogenic nematode *Heterorhabditis bacteriophora*

I. Alper Susurluk · N. Alper Kumral · U. Bilgili · E. Açıkgöz 321

A novel plant volatile attractant scheme to protect corn in China from the white-spotted flower chafer (Coleoptera: Scarabaeidae: Cetoniinae)

R. Chen · y. Li 327

Laboratory evaluation of the effectiveness of the entomopathogen; *Isaria farinosa*, on citrus mealybug, *Planococcus citri*

F. Demirci · M. Muştu · M. Bora Kaydan · S. Ülgentürk 337

Post-fire attractiveness of maritime pines (*Pinus pinaster* Ait.) to xylophagous insects

S. Santolamazza-Carbone · M. Pestaña · J.A. Vega 343

Oviposition preference and larval performance of *Aeolesthes sarta* (Coleoptera: Cerambycidae) in six hardwood tree species

A. Mazaheri · J. Khajehali · B. Hatami 355

Field evaluation of two systemic neonicotinoid insecticides against pink hibiscus mealybug (*Maconellicoccus hirsutus* (Green)) on mulberry trees

S.J. Castle · N. Prabhaker 363

Voracity of *Coccinella undecimpunctata*: effects of insecticides when foraging in a prey/plant system

S. Cabral · A.O. Soares · P. Garcia 373

Effects of chlorantraniliprole on development and reproduction of beet armyworm, *Spodoptera exigua* (Hübner)

T. Lai · J. Su 381

The toxicity of selected acaricides against five stored product mites under laboratory assay

J. Stará · M. Nesvorná · J. Hubert 387

Chemical composition and the insecticidal activity of certain plants applied as powders and essential oils against two stored-products coleopteran beetles

G.E. Nenaah · S.I.A. Ibrahim 393
