## Plant Industry

- Characteristics of the Formation of Amino Acid Composition of Spring Barley Grain Protein Depending on Agroecological Growing Conditions in the Middle Volga Region  
*V. V. Glukhovtsev, N. V. Droval'eva, and N. V. Sanina* 351
- Acid, Cold, and Drought Tolerance in Cereals  
*N. M. Karmanenko, L. V. Osipova, and N. T. Nilovskaya* 354
- The Influence of Aluminium on the Structural Organization of the Roots of Barley in Culture *in Vitro*  
*E. N. Baranova, A. V. Bakulina, I. G. Shirokikh, O. N. Shuplechova, I. A. Chaban, A. A. Gulevich, and V. Y. Polyakov* 358
- Assessing the Effect of Temperature Stressors on Maize Plants from the Change in Antioxidative Activity  
*A. S. Lukatkin and N. V. Naraikina* 364
- Economic Efficiency of Mineral Fertilizers on Corn Hybrids  
*V. N. Bagrintseva and G. N. Sukhoyatskaya* 367
- Continuous Transformation of the Pea Genome  
*A. N. Zelenov, N. E. Pavlovskaya, V. Yu. Shchetinin, and N. N. Korinenko* 370
- Molecular Genetic Identification of Alleles of Self-incompatibility Gene in Russian Apple Varieties  
*I. I. Suprun, E. V. Ul'yanovskaya, Ya. V. Ushakova, and E. T. Il'nitskaya* 373
- Heat Resistance of Varieties and Red-Leaf and Green-Leaf Rootstocks in Apple Variety–Rootstock Combinations  
*L. N. Trutneva* 376
- Influence of NaCl Salinity on Some Physiological Aspect of Strawberry cv. Camarosa  
*Asghar Rahimi, Ali Biglarifard, and Majid Firozabadi* 378
- Evaluation of Genetic Variability of Six Iranian Landraces of Onion (*Allium cepa* L.) for Seed Yield and Yield Components  
*Mahin Rafieipour, Alireza Motallebi-Azar, Nasser Mahna, Habib Davati Kazemnia, Samaneh Kazemiani, and Fahimeh Yarmohamadi* 385
- 

## Virology

- Evaluation of Plant Virus Infection of Cereal Crops and Prediction of Spread of Disease in Primorskii Krai  
*Yu. G. Volkov, N. N. Kakareka, Z. N. Kozlovskaya, and A. G. Klykov* 392
- 

## Plant Protection

- Agrobiological Characteristics of Leaf Rust Resistance in Wheat under Conditions of the Northwestern Region of the Russian Federation  
*L. E. Kolesnikov, E. V. Zuev, and Yu. R. Kolesnikova* 395
-

## Pedology

Evaluation of the Effect of Long Use of Straw on Restoration of Organic Matter in Sod-Podzolic Soil <i>I. V. Rusakova and A. I. Es'kov</i>	400
---	-----

---

## Animal Husbandry

Activity of Platelet Hemostasis in Newborn Calves <i>I. N. Medvedev and S. Yu. Zavalishina</i>	404
Meat Productivity and Internal Characteristics of Young Sheep of Different Genotypes <i>L. N. Skorykh</i>	407
Evaluation of Genetic Diversity of Reindeer ( <i>Rangifer tarandus</i> ) by Means of Multilocus DNA Fingerprinting <i>V. V. Goncharov, O. V. Mitrofanova, N. V. Dement'eva, V. I. Tyshchenko, and A. F. Yakovlev</i>	409
Content of Biogenic and Toxic Elements in Goat Feed and Milk <i>N. N. Isamov, V. S. Anisimov, N. V. Grudina, N. S. Grudin, L. V. Isamova, R. A. Frigidov, and V. N. Isakova</i>	413
Use of Modifier Genes in Breeding Color- and Feather-Sexed Poultry <i>Ya. S. Roiter, A. V. Egorova, A. A. Sevast'yanova, T. N. Degtyareva, A. V. Aleksandrov, O. L. Amelina, E. Yu. Burmistrova, and O. P. Lesik</i>	416
Selenium Content in Muscle Tissue of Wildlife in Khabarovsk Territory <i>N. A. Golubkina, Yu. G. Koval'sky, and O. A. Sen'kevich</i>	419

---

## Apiculture

Production of Chitin–Melanin Complexes from <i>Apis mellifera</i> and Study of the Possibility of Using Them as Radionuclide Sorbents <i>A. V. Bakulin, I. E. Veleshko, E. V. Rummyantseva, A. N. Levov, L. A. Burmistrova, V. P. Kurchenko, R. G. Khismatullin, V. P. Varlamov, and N. I. Krivtsov</i>	423
--	-----

---

## Veterinary Science

Seroimmunological Affiliation of African Swine Fever Virus Isolated in the Russian Federation <i>V. M. Balyshv, Yu. F. Kalantaenko, M. V. Bolgova, and E. Yu. Prodnikova</i>	427
---	-----

---

## Mechanization

Modeling the Motion of Particles of a Pile on a Screen under the Action of Conveyor Slats <i>V. A. Sysuev, A. V. Aleshkin, and A. Yu. Isupov</i>	430
---	-----

---

## Storage and Processing of Agricultural Products

Effect of Electromagnetic Radiation of the Extremely High Frequency Millimeter Range on Thermophilic Cultures of Bacteria of Lactic Acid Products <i>S. V. Larionov, D. V. Krivenko, and A. V. Avdeenko</i>	434
Effect of Seed Planting Depth on Brewing Qualities of Barley Grain and Malt <i>M. B. Khokonova</i>	436
Dependence of Water-Binding Properties of Ground Meat on Change in Active Acidity <i>E. V. Fat'yanov, A. V. Rypalov, and R. E. The</i>	439
