

Contents

- Approaches to improve the determination of eligibility for plant variety protection: II. Identification and Evaluation of a Core Set of Morphological Characteristics.** John R Law, Steven R Anderson, Elizabeth S Jones, Barry Nelson, Enver Mulaosmanovic, Bradford D Hall, J Stephen C Smith 209
- Anomalous fertilization in haploidy inducer lines in maize (*Zea mays* L).** M Swapna, Kumud R Sarkar 211
- Association of progeny variance and genetic distances among parents and implications for the design of elite maize breeding programs.** Friedrich H Longin, Wenxin Liu, Nicolas Ranc, Jochen C Reif 227
- Transcriptional profiling of *Zea mays* genotypes with different drought tolerances – new perspectives for gene expression markers selection.** Dumitru Badicean, Stefan Scholten, Anatol Jacota 233
- Utilizing *Leafy* genes as resources in quality silage maize breeding.** Janos Pinter, Francis Glenn, Sietse Pen, Istvan Pok, Zsuzsanna Hegyi, Zsuzsanna Tothne Zsubori, Geza Hadi, Csaba L Marton 243
- Genetic similarity of sweet corn inbred lines in correlation with heterosis.** Jelena Srdić, Ana Nikolić, Zorica Pajić, Snežana Mladenović Drinić, Milomir Filipović 251
- Variability for resistance to the pink stem borer (*Sesamia calamistis* Hampson) and the sugarcane borer (*Eldana saccharina* Walker) in two tropical maize populations.** Qudrah Oloyede-Kamiyo, Sam O Ajala, Malachy O Akoroda 257
- Inbreeding and yield of synthetic varieties derived from single and double cross hybrids.** Jaime Sahagún Castellanos 265
- Genetic evaluation of tropical popcorn inbred lines using BLUP.** José MS Viana, Mágnó SF Valente, Carlos A Scapim, Marcos DV de Resende, Fabyano F e Silva 273
- Prey consumption and development of *Chrysoperla externa* (Neuroptera: Chrysopidae) on *Spodoptera frugiperda* (Lepidoptera: Noctuidae) eggs and larvae and *Anagasta kuehniella* (Lepidoptera: Pyralidae) eggs.** Wagner S Tavares, Ivan Cruz, Rafael B Silva, José E Serrão, José C Zanuncio 283
- Grain quality-related traits in maize: gene identification and exploitation.** Mario Motto, Hans Hartings, Marco Fracassetti, Gabriella Consonni 291
