

## Seed Science Research

### Research Papers

<b>Hundertmark, M., Buitink, J., Leprince, O. &amp; Hinch, D.K.</b> The reduction of seed-specific dehydrins reduces seed longevity in <i>Arabidopsis thaliana</i> .....	165
<b>Schwember, A.R. &amp; Bradford, K.J.</b> Oxygen interacts with priming, moisture content and temperature to affect the longevity of lettuce and onion seeds .....	175
<b>Berjak, P., Sershen, Varghese, B. &amp; Pammenter, N.W.</b> Cathodic amelioration of the adverse effects of oxidative stress accompanying procedures necessary for cryopreservation of embryonic axes of recalcitrant-seeded species.....	187
<b>Raveneau, M.P., Coste, F., Moreau-Valancogne, P., Lejeune-Hénaut, I. &amp; Durr, C.</b> Pea and bean germination and seedling responses to temperature and water potential .....	205
<b>Yang, C.J., Chien, C.-T., Liao, Y.K., Chen, S.-Y., Baskin, J.M., Baskin, C.C. &amp; Kuo-Huang, L.-L.</b> Deep simple morphophysiological dormancy in seeds of the basal taxad <i>Cephalotaxus</i> .....	215
<b>Perea, R., San Miguel, A. &amp; Gil, L.</b> Disentangling factors controlling fruit and seed removal by rodents in temperate forests .....	227
<b>Montesinos-López, O.A., Montesinos-López, A., Crossa, J., Eskridge, K. &amp; Sáenz, R.A.</b> Optimal sample size for estimating the proportion of transgenic plants using the Dorfman model with a random confidence interval.....	235
<b>Corrigendum</b> .....	246
