

International and Multidisciplinary Journal

Volume 1 · Number 1

Printed August 2010

Dempster T, Holmer M

EDITORIAL: Introducing the new multidisciplinary journal *Aquaculture Environment Interactions* i–ii

Glover KA

REVIEW: Forensic identification of fish farm escapees: the Norwegian experience 1–10

Uglem I, Bjørn PA, Mitamura H, Nilsen R

Spatiotemporal distribution of coastal and oceanic Atlantic cod *Gadus morhua* sub-groups after escape from a farm 11–19

Krkošek M

REVIEW: Host density thresholds and disease control for fisheries and aquaculture 21–32

Hargrave BT

Empirical relationships describing benthic impacts of salmon aquaculture 33–46

Feindel NJ, Benfey TJ, Trippel EA

Competitive spawning success and fertility of triploid male Atlantic cod *Gadus morhua* 47–55

Holmer M

REVIEW: Environmental issues of fish farming in offshore waters: perspectives, concerns and research needs 57–70

Jensen Ø, Dempster T, Thorstad EB, Uglem I, Fredheim A

REVIEW: Escapes of fishes from Norwegian sea-cage aquaculture: causes, consequences and prevention 71–83
