

International and Multidisciplinary Journal

Volume 1 · Number 3

Printed July 2011

Hanson KC, Ostrand KG

REVIEW: Potential effects of global climate change on National Fish Hatchery operations in the Pacific Northwest, USA 175–186

Olsen Y

AS I SEE IT: Resources for fish feed in future mariculture 187–200

Plew DR

Shellfish farm-induced changes to tidal circulation in an embayment, and implications for seston depletion 201–214

**Chittenden CM, Rikardsen AH,
Skilbrei OT, Davidsen JG, Halttunen E,
Skarøhamar J, McKinley RS**

An effective method for the recapture of escaped farmed salmon 215–224

Penston MJ, McBeath AJA, Millar CP

Densities of planktonic *Lepeophtheirus salmonis* before and after an Atlantic salmon farm relocation 225–232

**Bjørn PA, Sivertsgård R, Finstad B,
Nilsen R, Serra-Llinares RM,
Kristoffersen R**

Area protection may reduce salmon louse infection risk to wild salmonids 233–244

**Baxter EJ, Rodger HD, McAllen R,
Doyle TK**

Gill disorders in marine-farmed salmon: investigating the role of hydrozoan jellyfish 245–257

Cassis D, Pearce CM, Maldonado MT

Effects of the environment and culture depth on growth and mortality in juvenile Pacific oysters in the Strait of Georgia, British Columbia 259–274
