| <b>General Survey of ART in Germany</b>  |            |
| Outcome of ART 2011  | 460        |
| Number of IVF-centres 1982–2011  | 460        |
| Number of treatment cycles 1982–2011 (plausible cycles)  | 460        |
| Number of treatment cycles 2011 (prospective cycles)   | 461        |
| Number of cycles with ovum pick up (OPU) 2011  | 461        |
| Statistics in short 2011 for IVF, ICSI and IVF/ICSI  | 461        |
| D·I·R-statistics in short 2011   | 462        |
| D·I·R-statistics in short 2010 (update to annual 2010)   | 463        |
| Clinical pregnancies, miscarriages, ectopic pregnancies and stillbirths 2010                         | 464        |
| Multiple deliveries 2010   | 464        |
| Deliveries as a function of the number of embryos transferred and age groups (2000–2010)             | 465        |
| Deliveries as a function of the number of embryos transferred – IVF, ICSI, cryo-transfer (2000–2010) | 465        |
| Fertilisation rate IVF and ICSI 2011   | 466        |
| Distribution of indications for IVF and ICSI 2011  | 466        |
| <b>Outcome of IVF, ICSI and Cryo-transfer</b>  |            |
| Outcome of IVF, ICSI and cryo-transfer 2011 (prospective cycles)                                     | 467        |
| Outcome as a function of woman's age – IVF 2011  | 468        |
| Outcome as a function of woman's age – ICSI 2011   | 468        |
| Clinical pregnancy-rate as a function of the number of embryos transferred and age groups 2011       | 469        |
| Clinical pregnancy-rate as a function of the embryo quality – IVF, ICSI, IVF/ICSI 2011               | 469        |

# Contents

|   |            |
|---|------------|
| Clinical pregnancy-rate as a function of the embryo quality – cryotransfer 2011                             | 470        |
| Miscarriage rates as a function of woman's age and number of embryos transferred 2011                       | 470        |
| Clinical pregnancy-rate as a function of the stimulation protocol – IVF, ICSI 2011                          | 471        |
| Average age of women and men – IVF, ICSI, IVF/ICSI (1997–2011)  | 472        |
| Duration of childlessness at the time of first treatment – IVF, ICSI, IVF/ICSI (1997–2011)                  | 472        |
| Number of treatment cycles per woman (1997–2011)  | 473        |
| Total probability per woman for pregnancy (1997–2011)   | 473        |
| Clinical pregnancy-rate as a function of the number of oocytes retrieved and the duration of embryo culture | 474        |
| <b>Children Born</b>  |            |
| All children born (1997–2011)   | 475        |
| Children's birth weight (bw) and week of gestation (wg) 2010 (singletons, twins, triplets)                  | 476        |
| <b>OHSS and Complications</b>   |            |
| Complications as a function of ovum pick up 2011  | 477        |
| OHSS after embryo transfer as a function of the stimulation protocol – IVF, ICSI, IVF/ICSI 2011             | 477        |
| <b>Therapy Decisions</b>  |            |
| Therapy decisions against outcome of previous treatment cycle   | 478        |
| <b>List of Centres Participating in D-I-R</b>   | <b>479</b> |
