

mycoses

Diagnosis, Therapy and Prophylaxis of Fungal Diseases

Official Publication of Deutschsprachige Mykologische Gesellschaft
Official Journal of the European Confederation of Medical Mycology

VOLUME 55

MAY 2012

NUMBER 3

CONTENTS

REVIEW ARTICLES

S. Tobudic, C. Kratzer, A. Lassnigg, E. Presterl. Antifungal susceptibility of *Candida albicans* in biofilms 199

M. Hamad. Innate and adaptive antifungal immune responses: partners on an equal footing 205

A. Baldo, M. Monod, A. Mathy, L. Cambier, E. T. Bagut, V. Defaweux, F. Symoens, N. Antoine, B. Mignon. Mechanisms of skin adherence and invasion by dermatophytes 218

ORIGINAL ARTICLES

J. W. Shupp, R. Petraitiene, A. D. Jaskille, A. R. Pavlovich, S. E. Matt, D. T. Nguyen, M. A. Kath, J. C. Jeng, M. H. Jordan, M. Finkelman, T. J. Walsh, S. Shoham. Early serum (1→3)-β-D-glucan levels in patients with burn injury 224

G. G. Tapia, R. R. Razonable, J. E. Eckel-Passow, B. D. Lahr, B. Afessa, M. T. Keegan, J. Catania, L. M. Baddour. A scoring model of factors associated with *Candida glabrata* candidemia among critically ill patients 228

G. Blum, S. Eschertzhuber, J. Auberger, H. Ulmer, C. Geltner, G. Gastl, D. Nachbaur, C. Lass-Flörl. Airborne fungus exposure prior to hospitalisation as risk factor for mould infections in immunocompromised patients 237

D. Al-Badriyeh, D. Liew, K. Stewart, D. C. M. Kong. Pharmacoeconomic analysis of voriconazole vs. caspofungin in the empirical antifungal therapy of febrile neutropenia in Australia 244

I. Bernardes, M. P. Felipe Rodrigues, G. K. Bacelli, E. Munin, L. P. Alves, M. S. Costa. *Aloe vera* extract reduces both growth and germ tube formation by *Candida albicans* 257

M. Cogliati, N. Chandrashekar, M. C. Esposto, A. Chandramuki, B. Petrini, M. A. Viviani. *Cryptococcus gattii* serotype-C strains isolated in Bangalore, Karnataka, India 262

E. Gürçüoğlu, H. Akalm, B. Ener, S. Gedikoğlu. Colonisation in adult patients with nosocomial candidemia 269

F. Seyfarth, C. Wiegand, M. Erhard, Y. Gräser, P. Elsner, U.-C. Hipler. Identification of yeast isolated from dermatological patients by MALDI-TOF mass spectrometry 276

I. M. Madrid, A. S. Mattei, R. Santin, A. dos Reis Gomes, M. B. Cleff, M. C. A. Meireles. Inhibitory effect of sodium hypochlorite and chlorhexidine digluconate in clinical isolates of *Sporothrix schenckii* 281
