

The Thoracic and Cardiovascular Surgeon

- Editorial** 245 Construction in Progress...
M. K. Heinemann
- Original Basic Science** 247 Enhancement of Myocardial and Vascular Function after Phosphodiesterase-5 Inhibition in a Rat Model
S. Loganathan, T. Radovits, S. Korkmaz, K. Hirschberg, E. Barnucz, A. Weymann, T. Bömicke, R. Arif, M. Karck, G. Szabó
- 255 Hemolysis Compromises Nitric Oxide-Dependent Vasodilatory Responses in Patients Undergoing Major Cardiovascular Surgery
S. J. Hanssen, M. C. van de Poll, A. J. Houben, I. C. V. Windsant, M. G. Snoeijns, O. Bekers, W. A. Buurman, M. J. Jacobs
- Original Cardiovascular** 262 Hemolysis at Different Vacuum Levels During Vacuum-Assisted Venous Drainage: A Prospective-Randomized Clinical Trial
G. Deniz (contact)
- 269 Impact of papillary muscle approximation on mitral valve configuration in the surgical correction of ischemic mitral regurgitation
M. Susumu, S. Tomoki, F. Toshihiro, T. Minoru, T. Shuichiro
- Original Thoracic** 275 Pediatric Donor Lungs for Adult Transplant Recipients: Feasibility and Outcomes
H. B. Keshava, D. P. Mason, S. C. Murthy, G. B. Pettersson
- 280 The Effects of Clipping on Thoracic Sympathetic Nerve in Rabbits: Early and Late Histopathological Findings
F. Candas, R. Gorur, A. Haholu, N. Yiyit, A. Yildizhan, S. Gezer, H. Sen, T. Isitmangil
- 285 Early and Mid-Term Results of Single-Port Video-Assisted Thoracoscopic Sympathectomy
B. Apiliogullari, H. Esme, B. Yoldas, M. Duran, N. Duzgun, M. Calik
- Short Communication** 290 Influence of Radiofrequency Energy on Polypropylene Sutures in Atrial Tissue
J. Bohn, J. Gehron, A. Dellmann, A. Boening

Case Reports

- 293 Influenza A-Induced Cardiogenic Shock Requiring Temporary ECMO Support and Urgent Heart Transplantation
S. Keso, Z. Daniel, Z. Andreas, D. Martin
- 295 Perioperative Airway Management Strategy and Post-transplant Successful Tracheal Resection and Reconstruction in a Heart Transplant Candidate with Post-intubation Stenosis
E. Mehmet, E. Sina, Y. Halit, P. Erman, K. Suha
- 299 Successful Weaning from Extracorporeal Circulation Using a Pumpless Extracorporeal Lung Assist Device in a Patient with Intraoperative Hypercapnic Lung Failure During Aortic Valve Replacement
W. Manuel, P. Martin, G. Helmut, G. Alwin, R. Hermann
- 302 Use of Impella 5l for Acute Allograft Rejection Post-Cardiac Transplant
R. Chandola
- 305 Late Recurrence of a Cardiac Glomus Tumor
E. Raoof, U. Engin, B. Hardy, F. Ulrich

Some of the product names, patents, and registered designs referred to in this publication are in fact registered trade marks or proprietary names even though specific reference to this fact is not always made in the text. Therefore, the appearance of a name without designation as proprietary is not to be construed as a representation by the Publisher that it is in the public domain.

All rights, including the rights of publication, distribution, and sales, as well as the right to translation, are reserved. No part of this work covered by the copyrights hereon may be reproduced or copied in any form or by any means—graphic, electronic, or mechanical, including photocopying, recording, taping, or information and retrieval systems—without written permission of the Publisher.

Important Note: Medical knowledge is ever-changing. As new research and clinical experience broaden our knowledge, changes in treatment and drug therapy may be required. The authors and editors of the material herein have consulted sources believed to be reliable in their efforts to provide information that is complete and in accord with the standards accepted at the time of publication. However, in view of the possibility of human error by the authors, editors,

or publisher of the work herein, or changes in medical knowledge, neither the authors, editors, or publisher, nor any other party who has been involved in the preparation of this work, warrants that the information contained herein is in every respect accurate or complete, and they are not responsible for any errors or omissions or for the results obtained from use of such information. Because of rapid advances in the medical sciences, independent verification of diagnoses and drug dosages should be made. Readers are encouraged to confirm the information contained herein with other sources. For example, readers are advised to check the product information sheet included in the package of each drug they plan to administer to be certain that the information contained in this publication is accurate and that changes have not been made in the recommended dose or in the contraindications for administration. This recommendation is of particular importance in connection with new or infrequently used drugs.

Although all advertising material is expected to conform to ethical (medical) standards, inclusion in this journal does not constitute a guarantee or endorsement of the quality or value of such product or of claims made by its manufacturer.
