

mycoses

Diagnosis, Therapy and Prophylaxis of Fungal Diseases

Official Publication of Deutschsprachige Mykologische Gesellschaft
Official Journal of the European Confederation of Medical Mycology

VOLUME 55

SEPTEMBER 2012

NUMBER 5

CONTENTS

REVIEW ARTICLE

- N. M. Martinez-Rossi, G. F. Persinoti, N. T. A. Peres, A. Rossi.** Role of pH in the pathogenesis of dermatophytoses 381

- S. Fricke, C. Fricke, C. Oelkrug, R. Blatz, U. Schönfelder, D. Niederwieser, N. Hilger, M. Ruhnke, A. C. Rodloff.** A real-time PCR for the detection and characterisation of *Aspergillus* species 416

ORIGINAL ARTICLES

- C. Farina, S. Perin, S. Andreoni, M. Conte, P. Fazii, G. Lombardi, E. Manso, C. Morazzoni, S. Sanna on behalf of the Medical Mycology Committee (CoSM) 'Fungemia Diagnosis Study Group', Italian Society of Clinical Microbiology (AMCLI).** Evaluation of the peptide nucleic acid fluorescence *in situ* hybridisation technology for yeast identification directly from positive blood cultures: an Italian experience 388

- U. Reichard, D. Buchheidt, C. Lass-Flörl, J. Loeffler, R. Lugert, M. Ruhnke, K. Tintelnot, M. Weig, U. Groß.** Interlaboratory comparison of PCR-based identification of *Candida* and *Aspergillus* DNA in spiked blood samples 426

- L. Emtestam, Å. Svensson, K. Rensfeldt.** Treatment of seborrhoeic dermatitis of the scalp with a topical solution of urea, lactic acid, and propylene glycol (K301): results of two double-blind, randomised, placebo-controlled studies 393

- K. Shimodaira, Y. Okubo, H. Nakayama, M. Wakayama, M. Shinozaki, T. Ishiwatari, D. Sasai, T. Nemoto, K. Takahashi, T. Ishii, T. Saji, K. Shibuya.** Trends in the prevalence of invasive fungal infections from an analysis of annual records of autopsy cases of Toho University 435

- X. Jia, Q. Liang, F. Chi, W. Cao.** Otomycosis in Shanghai: aetiology, clinical features and therapy 404

- R. Balestri, G. Rech, B. M. Piraccini, A. Antonucci, A. Ismaili, A. Patrizi, F. Bardazzi.** Pityriasis versicolor during anti-TNF- α monoclonal antibody therapy: therapeutic considerations 444

- A. Sharma, S. Chandra, M. Sharma.** Difference in keratinase activity of dermatophytes at different environmental conditions is an attribute of adaptation to parasitism 410

- U. Petrausch, T. Frauenfelder, N. J. Mueller, K. Arn, G. Stussi, U. Schanz.** Optimised radiological diagnosis of hepatic fungal infection during the treatment of leukemia 447

LETTERS TO THE EDITOR

I. Zaraa, A. Zaouek, D. El Euch, S. Trojjet, M. Mokni, A. Ben Osman. Tinea capitis favosa in a 73-year-old immunocompetent Tunisian woman 454

F. Seyfarth, S. Goetze, Y. Gräser, M. Kaatz, U. Ott, C. Ruster, B. Edel, P. Elsner, U.-C. Hipler. Successful treatment of cutaneous alternariosis with caspofungin in a renal transplant recipient 457

J. García-Rodríguez, I. Quiles-Melero, K. Humala-Barbier, A. Monzon, M. Cuenca-Estrella. Isolation of *Cunninghamella blakesleeana* in an immunodepressed patient 463

CAPTION OF THE COVER ILLUSTRATION. "smoo cells" of *A. fumigatus*. pp. 426–434 in this issue.
