

The Thoracic and Cardiovascular Surgeon

- Editorial** 495 The Chef-in-Editor
M.K. Heinemann
- Original Cardiovascular** 496 Quality of Life Following Surgery of Ascending Aorta and Aortic Arch with Selective Antegrade Cerebral Perfusion
Reinhard Kobuch, Erich Schelker, Christof Schmid, Stephan Hirt, Matthias Amann, Claudius Diez
- 501 Hybrid Repair of Aortic Arch Aneurysms in Same Session
Levent Yilik, Orhan Gokalp, Ismail Yurekli, Serdar Bayrak, Tevfik Gunes, Nihan Karakas, Ibrahim Ozsoyler, Ali Gurbuz
- 508 Simultaneous Carotid Endarterectomy and Cardiac Surgery: Early results of 386 Patients
Brigitte Gansera, Fabian Schmidtler, Josef Weingartner, Theodor Kiask, Felix Gundling, Alexander Hapfelmeier, Walter Eichinger
- Special Report** 517 Surgical Treatment of Carotid In-Stent-Restenosis: Novel Strategy and Current Management
Dominik Jost, Susanne Johanna Unmuth, Helfried Meissner, Albrecht Henn-Beilharz, Hans Henkes, Thomas Hupp
- Original Thoracic** 525 Clinical Outcomes and Prognostic Factors for Surgically Resected Second Primary Lung Cancer
Mi Kyung Bae, Chun Sung Byun, Chang Young Lee, Jin Gu Lee, In Kyu Park, Dae Joon Kim, Kyung Young Chung
- 533 Clinical Impact of Intraoperative Detection of Carcinoembryonic Antigen mRNA in Pleural Lavage Specimens from Non-Small Cell Lung Cancer Patients
Yukitoshi Satoh, Sachiko Sugai, Hirofumi Uehara, Mingyon Mun, Yukinori Sakao, Sakaie Okumura, Ken Nakagawa, Yuichi Ishikawa, Yoshio Miki, Satoshi Miyata
- 541 Superiority of Video-Assisted To Standard Mediastinoscopy in Non-Small-Cell Lung Cancer Staging
Gokhan Ergene, Volkan Baysungur, Erdal Okur, Cagatay Tezel, Gokcen Sevilgen, Semih Halezeroglu
- How To Do It** 545 Endobronchial Foreign Body Removed by Flexible Bronchoscopy Using the Trendelenburg Position
Pei-Ming Huang, Ming-Wei Kao

- Case Reports**
- 548 Aortic Intramural Haematoma Presenting as Paraplegia Progressed into Segmental Aortic Dissection
Hua-gang Zhu, Bin-shan Zha, Bin Liu
- 552 A Rare Pattern of Acute Type an Aortic Dissection: Circumferential Intimal Invagination
Konstantin von Aspern, Christian D. Etz, Lukas Lehmkuhl, Friedrich W. Mohr, Pascal M. Dohmen
- Heart Group Statement**
- 555 Statement on Matching Language to the Type of Evidence Used in Describing Outcomes Data
Editors of the HEART Group Journals

Some of the product names, patents, and registered designs referred to in this publication are in fact registered trade marks or proprietary names even though specific reference to this fact is not always made in the text. Therefore, the appearance of a name without designation as proprietary is not to be construed as a representation by the Publisher that it is in the public domain.

All rights, including the rights of publication, distribution, and sales, as well as the right to translation, are reserved. No part of this work covered by the copyrights hereon may be reproduced or copied in any form or by any means—graphic, electronic, or mechanical, including photocopying, recording, taping, or information and retrieval systems—without written permission of the Publisher.

Important Note: Medical knowledge is ever-changing. As new research and clinical experience broaden our knowledge, changes in treatment and drug therapy may be required. The authors and editors of the material herein have consulted sources believed to be reliable in their efforts to provide information that is complete and in accord with the standards accepted at the time of publication. However, in view of the possibility of human error by the authors, editors,

or publisher of the work herein, or changes in medical knowledge, neither the authors, editors, or publisher, nor any other party who has been involved in the preparation of this work, warrants that the information contained herein is in every respect accurate or complete, and they are not responsible for any errors or omissions or for the results obtained from use of such information. Because of rapid advances in the medical sciences, independent verification of diagnoses and drug dosages should be made. Readers are encouraged to confirm the information contained herein with other sources. For example, readers are advised to check the product information sheet included in the package of each drug they plan to administer to be certain that the information contained in this publication is accurate and that changes have not been made in the recommended dose or in the contraindications for administration. This recommendation is of particular importance in connection with new or infrequently used drugs.

Although all advertising material is expected to conform to ethical (medical) standards, inclusion in this journal does not constitute a guarantee or endorsement of the quality or value of such product or of claims made by its manufacturer.
