

*(Abstracts/contents list published in: AGRICOLA, Agris, BIOBASE, BIOSIS, BioBusiness, CAB Abstracts, CSA Database, Current Contents Search, Food Science and Technology Abstracts, Foodline: Food Science and Technology, Global Health, Inside Conferences, SCISEARCH, UnCover). Also covered in the abstract and citation database SciVerse Scopus®. Full text available on SciVerse ScienceDirect®.*

**Regular papers**

- Influence of condensed tannin on intake, digestibility, and efficiency of protein utilization in beef steers fed high concentrate diet  
R. Mezzomo, P.V.R. Paulino, E. Detmann, S.C. Valadares Filho, M.F. Paulino, J.P.I.S. Monnerat, M.S. Duarte, L.H.P. Silva and L.S. Moura . . . . . 1
- Genetic parameters and relationships of heifer pregnancy and age at first calving with weight gain, yearling and mature weight in Nelore cattle  
A.A. Boligon and L.G. Albuquerque . . . . . 12
- Finishing cattle at pasture at 30 months of age or indoors at 25 months of age: Effects on selected carcass and meat quality characteristics  
A.P. Moloney, M.T. Mooney, D.J. Troy and M.G. Keane . . . . . 17
- Aberrant mRNA expression and DNA methylation levels of imprinted genes in cloned transgenic calves that died of large offspring syndrome  
J. Su, Y. Wang, Q. Liu, B. Yang, Y. Wu, Y. Luo, G. Hu and Y. Zhang . . . . . 24
- Digestibility, methane production and nitrogen balance in sheep fed ensiled or fresh mixtures of sorghum–soybean forage  
R. Lima, R.F. Díaz, A. Castro and V. Fievez . . . . . 36
- Time budget, social and ingestive behaviours expressed by native beef cows in Mediterranean conditions  
A. Braghieri, C. Pacelli, A. Girolami and F. Napolitano . . . . . 47
- An evaluation of the effects of  $\alpha$ -tocopherol and ascorbic acid in bovine respiratory disease complex occurring in feedlot calves after transport  
R. Urban-Chmiel, P. Hola, U. Lisiecka, A. Wernicki, A. Puchalski, M. Dec and M. Wysocka . . . . . 53
- Rolling behaviour of sows in relation to piglet crushing on sloped versus level floor pens  
L. Danholt, V.A. Moustsen, M.B.F. Nielsen and A.R. Kristensen . . . . . 59
- Increasing stocking density causes inhibition of metabolic–antioxidant enzymes and elevates mRNA levels of heat shock protein 70 in rainbow trout  
E. Aksakal, D. Ekinci, O. Erdođan, Ş. Beydemir, Z. Alım and S.B. Ceyhun . . . . . 69
- Short communications**
- Efficacy of vitamin E+selenium and vitamin A+D+E combinations on oxidative stress induced by long-term transportation in Holstein dairy cows  
M.S. Aktas, S. Ozkanlar, A. Karakoc, F. Akcay and Y. Ozkanlar . . . . . 76
- Chopping of whole-crop barley silage improves intake and live-weight gain of young dairy steers  
B.-O. Rustas and E. Nadeau . . . . . 80
- Effects of fermented garlic powder supplementation on growth performance, blood profiles and breast meat quality in broilers  
X. Ao, J.S. Yoo, T.X. Zhou, J.P. Wang, Q.W. Meng, L. Yan, J.H. Cho and I.H. Kim . . . . . 85
- Herb feeding increases n–3 and n–6 fatty acids in cow milk  
M.B. Petersen, K. Søgaard and S.K. Jensen . . . . . 90
