

# CONTENTS

(Full texts are incorporated in CJELSEVIER, a file in the Chemical Journals Online database available on STN International; Abstracted, indexed in: Aluminium Abstracts; Anal. Abstr.; Biol. Abstr.; BIOSIS; Chem. Abstr.; Curr. Contents Phys. Chem. Earth Sci.; Engineered Materials Abstracts; Excerpta Medica; Index Med.; Life Sci.; Mass Spectrum. Bull.; Material Business Alerts; Metals Abstracts; Sci. Citation Index)

Links between the species abundance distribution and the shape of the corresponding rank abundance curve J. Izsák (Budapest, Hungary) and S. Pavoine (Paris, France and Oxford, UK) . . . . .	1
Connectance of species interaction networks and conservation value: Is it any good to be well connected? R. Heleno (Mallorca, Spain), M. Devoto (Buenos Aires, Argentina) and M. Pocock (Bristol, UK) . . . . .	7
Assessment of agroeconomic indices in polycultures of lettuce, rocket and carrot through uni- and multi-variate approaches in semi-arid Brazil F. Bezerra Neto, V.C.N. Porto (Mossoró, Brazil), E.G. Gomes (Brasília, Brazil), A.B. Cecílio Filho (Jaboticabal, Brazil) and J.N. Moreira (Mossoró, Brazil) . . . . .	11
Linking woodland key habitat inventory and forest inventory data to prioritize districts needing conservation efforts S. Ikauniece (Daugavpils, Latvia and Rīga, Latvia), G. Brūmelis and J. Zariņ (Rīga, Latvia and Salaspils, Latvia) . . . . .	18
Identification Guide of Freshwater Macroinvertebrates of Spain E. Baquero (Pamplona, Spain) . . . . .	27
Trend analysis of vegetation dynamics in Qinghai–Tibet Plateau using Hurst Exponent J. Peng (Beijing, China), Z. Liu (Beijing China and Shenzhen, China), Y. Liu (Beijing, China), J. Wu and Y. Han (Beijing China and Shenzhen, China) . . . . .	28
The use of soil respiration as an ecological indicator in arid ecosystems of the SE of Spain: Spatial variability and controlling factors C. Oyonarte, A. Rey, J. Raimundo, I. Miralles and P. Escibano (Almería, Spain). . . . .	40
White Fringed Orchid as indicator of <i>Sphagnum</i> bog integrity V. Laroche, S. Pellerin and L. Brouillet (Québec, Canada) . . . . .	50
Hyperspectral indices for estimating leaf biochemical properties in temperate deciduous forests: Comparison of simulated and measured reflectance data sets Q. Wang (Shizuoka, Japan) and P. Li (Urumqi, China) . . . . .	56
The potential of the satellite derived green chlorophyll index for estimating midday light use efficiency in maize, coniferous forest and grassland C. Wu (Beijing, China and Toronto, Canada), Z. Niu and S. Gao (Beijing, China) . . . . .	66
Aquatic bryophytes as ecological indicators of the water quality status in the Tiber River basin (Italy) S. Ceschin (Rome, Italy), M. Aleffi (Camerino, Italy), S. Bisceglie, V. Savo (Rome, Italy) and V. Zuccarello (Lecce, Italy) . . . . .	74
NIRS meets Ellenberg's indicator values: Prediction of moisture and nitrogen values of agricultural grassland vegetation by means of near-infrared spectral characteristics V.H. Klaus, T. Kleinebecker (Münster, Germany), S. Boch (Bern, Switzerland), J. Müller (Potsdam, Germany), S.A. Socher, D. Prati (Bern, Switzerland), M. Fischer (Bern, Switzerland and Potsdam, Germany) and N. Hölzel (Münster, Germany) . . . . .	82
Ostracods from water bodies in hyperarid Israel and Jordan as habitat and water chemistry indicators S. Mischke (Potsdam, Germany and Berlin, Germany), H. Ginat (Tamar, Israel), B. Al-Saqarat (Mafraq, Jordan) and A. Almogi-Labin (Jerusalem, Israel) . . . . .	87
Influence of small-scale gold mining on French Guiana streams: Are diatom assemblages valid disturbance sensors? L. Tudesque, G. Grenouillet, M. Gevrey (Toulouse, France), K. Khazraie (Saül, French Guiana) and S. Brosse (Toulouse, France) . . . . .	100

General Surveillance of the soil ecosystem: An approach to monitoring unexpected adverse effects of GMO's E. Smit (Bilthoven, The Netherlands), P.A.H.M. Bakker (Utrecht, The Netherlands), H. Bergmans (Bilthoven, The Netherlands), J. Bloem (Wageningen, The Netherlands), B.S. Griffiths (Wexford, Ireland), M. Rutgers (Bilthoven, The Netherlands), O. Sanvido (Zurich, Switzerland), B.K. Singh (Penrith South, Australia), H. van Veen (Heteren, The Netherlands), R. Wilhelm (Quedlinburg, Germany) and D.C.M. Glandorf (Bilthoven,, The Netherlands) .....	107
Implications of anthropogenic disturbance factors on the Trichoptera assemblage in a Mediterranean fluvial system: Are Trichoptera useful for identifying land-use alterations? A. R.-García, J. M.-Rodríguez and M. F.-Romero (Sevilla, Spain ) .....	114
Do nematode and macrofauna assemblages provide similar ecological assessment information? J. Patrício (Coimbra, Portugal), H. Adão (Évora, Portugal), J.M. Neto, A.S. Alves (Coimbra, Portugal), W. Traunspurger (Bielefeld, Germany) and J.C. Marques (Coimbra, Portugal) .....	124
Subfossil ostracode assemblages from Mongolia – Quantifying response for paleolimnological applications T. Van der Meeren (Ghent, Belgium and Brussels, Belgium), S. Mischke (Potsdam, Germany), N. Sunjidmaa (Ulaanbaatar, Mongolia), U. Herzschuh (Potsdam, Germany), E. Ito (Minneapolis, MN, USA), K. Martens (Ghent, Belgium and Brussels, Belgium) and D. Verschuren (Ghent, Belgium) .....	138
Phytoplankton phenology in the global ocean M.-F. Racault (Plymouth, UK and Norwich, UK), C. Le Quéré (Norwich, UK and Cambridge, UK), E. Buitenhuis (Norwich, UK), S. Sathyendranath and T. Platt (Plymouth, UK) .....	152
The relationship between percentage of singletons and sampling effort: A new approach to reduce the bias of richness estimates L.C.S. Lopez, M.P. de Aguiar Fracasso, D.O. Mesquita, A.R.T. Palma and P. Riul (Paraíba, Brazil) .....	164
Atmospheric element deposit on tree barks: The opposite effects of rain and transpiration M. Catinon (Grenoble, France), S. Ayrault (Yvette, France), O. Boudouma (Paris, France), J. Asta, M. Tissut and P. Ravanel (Grenoble, France) .....	170
An intertidal limpet species as a bioindicator: Pollution effects reflected by shell characteristics J.D. Nuñez, M.V. Laitano and M. Cledón (Mar del Plata, Argentina) .....	178
Hermit crabs as bioindicators of recent tributyltin (TBT) contamination B.S. Sant'Anna (Rio Claro, Brazil and São Paulo, Brazil), D.M. dos Santos (São Paulo, Brazil), D.C. Sandron, S.C. de Souza, M.R.R. de Marchi (Araraquara, Brazil), F.J. Zara (Rio Claro, Brazil and Jaboticabal, Brazil) and A. Turra (São Paulo, Brazil) .....	184
Primary consumers as bioindicator of nitrogen pollution in lake planktonic and benthic food webs J. Xu and M. Zhang (Wuhan, PR China) .....	189
Causality between pillars of sustainable development: Global stylized facts or regional phenomena? H. Mirshojaeian Hosseini and S. Kaneko (Hiroshima, Japan) .....	197
Desirable mathematical properties of indicators for biodiversity change A.J. van Strien (The Hague, The Netherlands and Amsterdam, The Netherlands), L.L. Soldaat (The Hague, The Netherlands) and R.D. Gregory (Sandy, UK) .....	202
Different policy scenarios to promote various targets of biodiversity L. Mouysset, L. Doyen and F. Jiguet (Paris, France) .....	209
Spatial and seasonal variability of some biomarkers in <i>Salaria basilisca</i> (Pisces: Blennidae): Implication for biomonitoring in Tunisian coasts S. Barhoumi, I. Messaoudi (Monastir, Tunisia), F. Gagné (Québec, Canada) and A. Kerkeni (Monastir, Tunisia) .....	222
The comparison of site spider “biodiversity quality” in Portuguese protected areas A. Feest and P. Cardoso (Bristol, UK) .....	229
