

Part B—Pesticides, Food Contaminants, and Agricultural Wastes

VOLUME 47 • ISSUE 10 • NOVEMBER–DECEMBER 2012

ARTICLES

- Fate and distribution of fipronil on companion animals and in their indoor residences following spot-on flea treatments** 913
Melinda Bigelow Dyk, Yu Liu, Zhenshan Chen, Helen Vega, and Robert I. Krieger
- Assays of polychlorinated biphenyl congeners and co-contaminated heavy metals in the transgenic *Arabidopsis* plants carrying the recombinant guinea pig aryl hydrocarbon receptor-mediated β -glucuronidase reporter gene expression system** 925
Sayuri Shimazu, Masaya Ohta, Hideo Ohkawa, and Hitoshi Ashida
- Evaluation of *Saccharomyces cerevisiae* strains as probiotic agent with aflatoxin B₁ adsorption ability for use in poultry feedstuffs** 933
Romina P. Pizzolitto, María R. Armando, Mariana Combina, Lilia R. Cavaglieri, Ana M. Dalcerro, and Mario A. Salvano
- Evaluation of pressurized liquid extraction for determination of organophosphorus and pyrethroid pesticides in soybean** 942
Takashi Yarita, Yoshie Aoyagi, and Takamitsu Otake
- Influence of sugar cane vinasse on the sorption and degradation of herbicides in soil under controlled conditions** 949
Carolina Lourencetti, Mary R. R. De Marchi, and Maria L. Ribeiro
- Quantification of ionophores in aged poultry litter using liquid chromatography tandem mass spectrometry** 959
Saptashati Biswas, Joshua M. McGrath, and Amir Sapkota
- Impact of vegetated filter strips on sorbed herbicide concentrations and sorption equilibrium in agricultural plots** 967
Pierre Lafrance and Emmanuelle Caron
- Erratum** 975
