745	<b>Starch of diverse Mexican rice cultivars: physicochemical, structural, and nutritional features</b>	C. E. Chávez-Murillo, G. Méndez-Montealvo, Y.-J. Wang and L. A. Bello-Pérez
757	<b>Novel use of <i>Acacia senegal</i> (Super Gum™) and <i>Anogeisus latifolia</i> (Gatifolia SD) as functional ingredients in extruded snack products: Their role in manipulating product characteristics and modulating the potential glycaemic response of snack foods</b>	M. A. Brennan, E. Derbyshire, B. K. Tiwari, G. O. Phillips, T. Ogasawara and C. S. Brennan

REVIEW

- 765 **Perspectives on the history of research on starch**  
**Part II: On the discovery of the constitution of**  
**diastase** K. Seetharaman and E. Bertoft

RESEARCH ARTICLE

- 770 **Catalytic conversion of carbohydrates into**  
**5-hydroxymethylfurfural by Hafnium(IV) chloride**  
**in ionic liquids** Z. Zhang, B. Liu and Z. K. Zhao
- 776 **Effect of the thermo-alkaline treatment over the**  
**thermal degradation of corn starch** P. Pineda-Gómez, A. Rosales-Rivera  
and M. E. Rodríguez-García
- 786 **Effect of damaged starch on wheat starch thermal**  
**behavior** G. N. Barrera, A. E. León and  
P. D. Ribotta
- 794 **Effect of processing conditions on producing a**  
**reactive derivative from  $\beta$ -cyclodextrin with**  
**itaconic acid** M. Nazi, R. M. A. Malek and  
M. B. Moghadam
- 803 **Water sorption kinetics of superabsorbent**  
**hydrogels of saponified cassava starch-**  
**graft-poly(acrylamide)** P. C. Parvathy and A. N. Jyothi
- 813 **The effect of acid and glucoamylase hydrolysis**  
**on partial physicochemical properties and**  
**characteristics of *Dioscorea alata* Linn. starch** Q. Jiang, W. Gao, X. Li, Y. Shi,  
L. Guo and P. Xiao
- 821 **Starch modification using a twin-roll mixer as a**  
**reactor** D. Qiao, W. Zou, X. Liu, L. Yu,  
L. Chen, H. Liu and N. Zhang
- 826 **Preparation, characterization, and water resistance**  
**of cationic acetylated starch-g-poly(styrene-butyl**  
**acrylate) surfactant-free emulsion** J. Mou, X. Li, H. Wang, G. Fei and  
Q. Liu

SHORT COMMUNICATION

- 835 **Effects of moisture content on structural and**  
**dielectric properties of cassava starch films** P. Bergo, I. C. F. Moraes and  
P. J. do Amaral Sobral
