

Plant Industry

Significance of Spring Barley Variety in Energy-Saving Cultivation Technologies <i>V. V. Glukhovtsev, S. Yu. Tsarevskii, E. V. Stolpivskaya, S. N. Kulyasov, and A. S. Tolpekina</i>	259
Formation and Exhaustion of Spring Cereal Grains in the Cis-Urals <i>S. L. Eliseev and N. N. Yarkova</i>	262
Effect of Storage Time and Furolan on the Contents of Nitrogen, Protein and Non Protein Nitrogen in Winter Wheat Grain <i>Essien Okon</i>	265
Improving Methods of Studying Weather and Winter Hardiness of Plants under Changed Climate Conditions <i>I. P. Khaustovich and G. N. Pugachev</i>	269
Determination of Tissue Elasticity of Apple, Pear, and Quince Fruits for Predicting Losses during Cold Storage <i>V. G. Verzhuk, S. V. Murashev, and A. Yu. Belova</i>	272
Optimization of Microwave Assisted Extraction for Determination of Iron And Manganese in Cereal Flour Using FAAS: Doehlert Design <i>Mostafa Khajeh and Mansour Ghaffari Moghaddam</i>	275

Plant Protection

Investigation of the Effectiveness of Fungicides for Protecting Cereals from Fusarium Head Blight <i>L. D. Grishechkina, G. V. Volkova, and V. I. Dolzhenko</i>	281
---	-----

Fodder Production

Effectiveness of the Multienzyme Preparation Ferkon during Preserving of Fodder Galega (<i>Galega orientalis</i> Lam.) <i>V. P. Klimenko</i>	285
---	-----

Amelioration

Significance of Soil Moisture Content and Mineral Nutrition in Intensifying Assimilation and Production Processes in Cucumber Crops under Drip Irrigation <i>N. N. Dubenok and R. V. Kalinichenko</i>	289
---	-----

Pedology

Study of Polydispersity of Humic Substances by the Gel Chromatography Method <i>E. D. Lodygin, V. A. Beznosikov and R. S. Vasilevich</i>	293
Some Regularities of Anthropogenic Transformation of Gray Forest Soils <i>N. V. Polyakova and Yu. N. Platonycheva</i>	297

Agriculture

- Adaptive Landscape Modernization of Forest and Hydraulic Ameliorative Land Management in the Volga Region
A. I. Shabaev, P. N. Proezdov, and D. A. Mashtakov 301
- Dynamics of the Weed Component and Productivity of a Grain Corn Agrophytocenose on Ordinary Chernozem under Various Primary Tillage Systems
A. V. Mal'isev, V. P. Kalinichenko, V. V. Chernenko, O. A. Onufriev, and T. V. Akulova 307
-

Animal Husbandry

- Single Nucleotide Polymorphism of Promoters of Candidate Genes Controlling Porcine Productivity Indices
N. S. Khlopova, B. Stefanon, D. Guiatti, T. T. Glazko, and V. I. Glazko 311
- Indices of the Antioxidant Status in High-Producing Cows in Dynamics of Dry and Postpartum Periods
I. Yu. Ventsova 318
- Activity of Vascular Hemostasis in Milk-Fed Calves
S. Yu. Zavalishina 321
- Productive Characteristics of Hens of the Parental Flock in Connection with Stress Sensitivity
A. V. Miftakhutdinov, A. I. Kuznetsov, and A. N. Terman 324
- Milk for Humans: Evolving Perceptions of an All-Time Mother Science
Akbar Nikkhah 328
-

Beekeeping

- Dynamics of Lead and Cadmium in Body of Bees Consuming Food Polluted by These Elements
M. D. Es'kova 337
-

Bioenergetics

- Exergy Basis of Yield Theory
D. S. Strebkov, I. I. Sventitskii, E. O. Alkhazova, and A. N. Obynochnyi 340
-
