Vol. 67. No. 3. 2012

Genesis and Geography of Soils

- Strong Negative Geochemical Anomaly of Raised Bog Peat
in the Middle Taiga Zone, Middle Priobye
*Yu. N. Vodyanitskii, A. T. Savichev, N. A. Avetov,
S. Ya. Trofimov, and S. A. Kozlov* 111
- Problems of Diagnosing the Solonetzic Process in Virgin
and Agriculturally Modified Soda Saline Soils of the Forest Steppe Zone in the Omsk Oblast
V. V. Khan, I. N. Lubimova, and I. A. Salpagarova 117
- Transformation of Micaceous Minerals of Various Crystal Chemistry under Influence
of Cyanobacteria and Actinomycetes Association
E. A. Ivanova, N. P. Chizhikova, and G. M. Zenova 122
- Soils of the Botanical Garden on Bolshoi Solovetsky Island
I. S. Urusevskaya and N. N. Matinian 126
- Chemical Forms of Radioactive Strontium Interaction
with Organic Matter of Different Soil Types
M. V. Fedorkova, E. P. Pakhnenko, and N. I. Sanzharova 133
-

Ecology

- Ecological–Economic Assessment of Natural and Agricultural Lands
of the Tula Region under Radioactive Contamination
E. V. Tsvetnov, O. B. Tsvetnova, A. I. Shcheglov, and A. S. Ryabchuk 137
