Research reports

Using plate mapping to examine sensitivity to plate size in food portions and meal composition among college students D. Sharp and J. Sobal	639–645
Breakfast is associated with enhanced cognitive function in schoolchildren. An internet based study K.A. Wesnes, C. Pincock and A. Scholey	646–649
Short sleep duration is associated with greater alcohol consumption in adults J.-P. Chaput, J. McNeil, J.-P. Després, C. Bouchard and A. Tremblay	650–655
The relationship between fat mass, eating behaviour and obesity-related psychological traits in overweight and obese individuals B.V. O’Neill, E.T. Bullmore, S. Miller, S. McHugh, D. Simons, C.M. Dodds, A. Koch, A. Napolitano and P.J. Nathan	656–661
Greater variety of fruit served in a four-course snack increases fruit consumption H.A. Raynor and K.M. Osterholt	662–667
Adolescents’ diets do not comply with 2007 Canada’s food guide recommendations M.D. Rossiter, S.E. Evers and A.C. Pender	668–672
Changes in antioxidant status and cardiovascular risk factors of overweight young men after six weeks supplementation of whey protein isolate and resistance training D. Sheikholeslami Vatani and F. Ahmadi Kani Golzar	673–678
Psychological distress as a mediator in the relationships between biopsychosocial factors and disordered eating among Malaysian university students W.Y. Gan, M.T. Mohd Nasir, M.S. Zalilah and A.S. Hazizi	679–687
Diurnal secretion of ghrelin, growth hormone, insulin binding proteins, and prolactin in normal weight and overweight subjects with and without the night eating syndrome G.S. Birketvedt, A. Gellebter, I. Kristiansen, Y. Firgenschau, R. Goll and J.R. Florholmen	688–692
Theory of Planned Behavior explains gender difference in fruit and vegetable consumption A.S. Emanuel, S.N. McCully, K.M. Gallagher and J.A. Updegraff	693–697
Intra-household use and acceptability of Ready-to-Use-Supplementary-Foods distributed in Niger between July and December 2010 S. Cohuet, C. Marquer, S. Shepherd, V. Captier, C. Langendorf, F. Ale, K. Phelan, M.L. Manzo and R.F. Grais	698–705
Consuming polydextrose in a mid-morning snack increases acute satiety measurements and reduces subsequent energy intake at lunch in healthy human subjects S. Hull, R. Re, K. Tiihonen, L. Viscione and M. Wickham	706–712
Development of a scale to measure consumer perception of the risks involved in consuming raw vegetable salad in full-service restaurants M.S. Danelon and E. Salay	713–722
Differentiating the effects of maternal and peer encouragement to diet on child weight control attitudes and behaviors B. Armstrong and D.M. Janicke	723–729
Effects of drinking supplementary water at school on cognitive performance in children R. Fadda, G. Rabinett, D. Grathwohl, M. Parisi, R. Fanari, C.M. Calò and J. Schmitt	730–737
Impulsivity and inhibitory control deficits are associated with unhealthy eating in young adults A.J. Jasinska, M. Yasuda, C.F. Burant, N. Gregor, S. Khatri, M. Sweet and E.B. Falk	738–747
Attentional biases to foods: The effects of caloric content and cognitive restraint C.A. Forestell, P. Lau, I.I. Gyurovski, C.L. Dickter and S.S. Haque	748–754
Beverages containing soluble fiber, caffeine, and green tea catechins suppress hunger and lead to less energy consumption at the next meal B.E. Carter and A. Drewnowski	755–761

Stress, emotional eating behaviour and dietary patterns in children N. Michels, I. Sioen, C. Braet, G. Eiben, A. Hebestreit, I. Huybrechts, B. Vanaelst, K. Vyncke and S. De Henauw	762-769
A test of different menu labeling presentations P.J. Liu, C.A. Roberto, L.J. Liu and K.D. Brownell	770-777
Ingestion of nutrition bars high in protein or carbohydrate does not impact 24-h energy intakes in healthy young adults C.M. Trier and C.S. Johnston	778-781
Eating style, overeating and weight gain. A prospective 2-year follow-up study in a representative Dutch sample T. van Strien, C. Peter Herman and M.W. Verheijden	782-789
Food after deprivation rewards the earlier eating D.A. Booth, S. Jarvandi and L. Thibault	790-795
Examining social physique anxiety and disordered eating in college women. The roles of social comparison and body surveillance E.E. Fitzsimmons-Craft, M.B. Harney, L.M. Brownstone, M.K. Higgins and A.M. Bardone-Cone	796-805
Understanding how consumers categorise nutritional labels: A consumer derived typology for front-of-pack nutrition labelling C. Hodgkins, J. Barnett, G. Wasowicz-Kirylo, M. Stysko-Kunkowska, Y. Gulcan, Y. Kustepeli, S. Akgungor, G. Chryssochoidis, L. Fernández-Celemin, S. Storcksdieck genannt Bonsmann, M. Gibbs and M. Raats	806-817
Toddlers' food preferences. The impact of novel food exposure, maternal preferences and food neophobia A.J. Howard, K.M. Mallan, R. Byrne, A. Magarey and L.A. Daniels	818-825
Factors that influence beverage choices at meal times. An application of the food choice kaleidoscope framework S. Mueller Loose and S.R. Jaeger	826-836
Death row nutrition. Curious conclusions of last meals B. Wansink, K.M. Kniffin and M. Shimizu	837-843
Perception of oyster-based products by French consumers. The effect of processing and role of social representations G. Debucquet, J. Cornet, I. Adam and M. Cardinal	844-852
The Dutch Eating Behaviour Questionnaire (DEBQ). Assessment of eating behaviour in an aging French population N. Bailly, I. Maitre, M. Amanda, C. Hervé and D. Alaphilippe	853-858
Brain structure predicts risk for obesity J. Smucny, M.-A. Cornier, L.C. Eichman, E.A. Thomas, J.L. Bechtell and J.R. Tregellas	859-865
Effect of organic school meals to promote healthy diet in 11-13 year old children. A mixed methods study in four Danish public schools C. He, S. Breiting and F.J.A. Perez-Cueto	866-876
"Healthy," "diet," or "hedonic". How nutrition claims affect food-related perceptions and intake? K. Gravel, É. Doucet, C. Peter Herman, S. Pomerleau, A.-S. Bourlaud and V. Provencher	877-884
Systems of attitudes towards production in the pork industry. A cross-national study B.T. Sørensen, M.D.d. Barcellos, N.V. Olsen, W. Verbeke and J. Scholderer	885-897
Associative and occasion-setting properties of contextual cues in flavor-nutrient learning in rats F. González, D. Garcia-Burgos and G. Hall	898-904
Defining, regulating and using saccharin at the outset of the industrial food era (1888-1914) X. Guillem-Llobat	905-911
Consumer understanding, interpretation and perceived levels of personal responsibility in relation to satiety-related claims E.M. Bilman, E.v. Kleef, D.J. Mela, T. Hulshof and H.C.M. van Trijp	912-920
Does body mass index in childhood predict restraint eating in early adolescence? C. Forrester-Knauss, S. Perren and F.D. Alsaker	921-926
Reproducibility of the measurement of sweet taste preferences K. Asao, W. Luo and W.H. Herman	927-932
Computer-based assessments of expected satiety predict behavioural measures of portion-size selection and food intake L.L. Wilkinson, E.C. Hinton, S.H. Fay, D. Ferriday, P.J. Rogers and J.M. Brunstrom	933-938

(Contents continued from inside back cover)

Investigation of anthropometric, biochemical and dietary parameters of obese children with and without non-alcoholic fatty liver disease D. Papandreou, Z. Karabouta, A. Pantoleon and I. Rousso	939-944
The associations between TV viewing, food intake, and BMI. A prospective analysis of data from the Longitudinal Study of Australian Children M. Fuller-Tyszkiewicz, H. Skouteris, L.L. Hardy and C. Halse	945-948
Integrating sensory evaluation in adaptive conjoint analysis to elaborate the conflicting influence of intrinsic and extrinsic attributes on food choice K. Hoppert, R. Mai, S. Zahn, S. Hoffmann and H. Rohm	949-955
Plasma cortisol levels in response to a cold pressor test did not predict appetite or ad libitum test meal intake in obese women A. Geliebter, C.D. Gibson, D.B. Hernandez, D. Atalayer, A. Kwon, M.I. Lee, N. Mehta, D. Phair and M.E. Gluck	956-959
The motivational and informational basis of attitudes toward foods with health claims I. Žeželj, J. Milošević, Ž. Stojanović and G. Ognjanov	960-967
