

Water Resources Management

Volume 26 · Number 2 · January 2012

Model-Based Optimization of Downstream Impact during Filling of a New Reservoir: Case Study of Mandaya/Roseires Reservoirs on the Blue Nile River

K. Hassaballah · A. Jonoski · I. Popescu · D.P. Solomatine 273

Rainwater Harvesting: An Alternative to Safe Water Supply in Nigerian Rural Communities

H.T. Ishaku · M.R. Majid · F. Johar 295

Reliability-Based Pipe Size Computation of On-Demand Irrigation Systems

N. Lamaddalena · R. Khadra · Y. Tlili 307

Development of a Demand Driven Hydro-climatic Model for Drought Planning

M. Karamouz · S. Imen · S. Nazif 329

Integrated Management of Non-conventional Water Resources in Anhydrous Islands

S. Liu · L.G. Papageorgiou · P. Gikas 359

Effect of Well Radius on Drawdown Solutions Obtained with Laplace Transform and Green's Function

C.-S. Fen · H.-D. Yeh 377

Design of Water Distribution Network for Equitable Supply

J. Chandapillai · K.P. Sudheer · S. Saseendran 391

Multi-reservoir Operation Rules: Multi-swarm PSO-based Optimization Approach

L. Ostadrahimi · M.A. Mariño · A. Afshar 407

Water Resource Models in the Mekong Basin: A Review

R. Johnston · M. Kummu 429

Intermittent Streamflow Forecasting by Using Several Data Driven Techniques

O. Kisi · A.M. Nia · M.G. Gosheh · M.R.J. Tajabadi · A. Ahmadi 457

An Empirical Assessment of On-Farm Water Productivity using Groundwater in a Semi-Arid Indian Watershed

V.C. Pande · V.N. Sharda · R.S. Kurothe · D.R. Sena · S.P. Tiwari 475

A Methodology to Model Water Demand based on the Identification of Homogenous Client Segments. Application to the City of Barcelona

S. Fontdecaba · P. Grima · L. Marco · L. Roderó · J.A. Sánchez-Espigares · I. Solé · X. Tort-Martorell · D. Demessence · V. Martínez De Pablo · J. Zobelzu 499

Implementation of GIS-Based Applications in Water Governance

R. Moody · J.A. van Ast 517

Water Resources Flows Related to Urbanization in China: Challenges and Perspectives for Water Management and Urban Development

C. Bao · C.-l. Fang 531

The Impact of Climate Change on Crop Production in West Africa: An Assessment for the Oueme River Basin in Benin

B.G.J.S. Sonneveld · M.A. Keyzer · P. Adegbola · S. Pande 553

Evaluating Bank Filtration as an Alternative to the Current Water Supply from Deeper Aquifer: A Case Study from the Pannonian Basin, Serbia

S. Stauder · Z. Stevanovic · C. Richter · S. Milanovic · A. Tucovic · B. Petrovic 581

Water Efficiency and the Professional Plumbing Sector: How Capacity and Capability Influence Knowledge Acquisition and Innovation

K. Elton · S.E. Wolfe 595
