

# ANIMAL GENETICS

Volume 43 Number 1 February 2012

## CONTENTS

### Editorial

- 1 New policy on the publication of obituaries in *Animal Genetics*  
*C Moran*

### Articles

- 2 Genetic characterization of Latin-American Creole cattle using microsatellite markers  
*J V Delgado, A M Martínez, A Acosta, L A Álvarez, E Armstrong, E Camacho, J Cañón, O Cortés, S Dunner, V Landi, J R Marques, I Martín-Burriel, O R Martínez, R D Martínez, L Melucci, J E Muñoz, M C T Penedo, A Postiglioni, J Quiróz, C Rodellar, P Sponenberg, O Uffo, R Ulloa-Arvizu, J L Vega-Pla, A Villalobos, D Zambrano, P Zaragoza, L T Gama, C Ginja*
- 11 Identification of an *FBNI* mutation in bovine Marfan syndrome-like disease  
*T Hirano, T Matsushashi, N Kobayashi, T Watanabe, Y Sugimoto*
- 18 A whole-genome association study for pig reproductive traits  
*S K Onteru, B Fan, Z-Q Du, D J Garrick, K J Stalder, M F Rothschild*
- 27 Genome-wide mapping for fatty acid composition and melting point of fat in a purebred Duroc pig population  
*Y Uemoto, Y Soma, S Sato, M Ishida, T Shibata, H Kadowaki, E Kobayashi, K Suzuki*
- 35 Mitochondrial lineages reveal intense gene flow between Iberian wild boars and South Iberian pig breeds  
*B van Asch, F Pereira, L S Santos, J Carneiro, N Santos, A Amorim*
- 42 A cohort study of racing performance in Japanese Thoroughbred racehorses using genome information on ECA18  
*T Tozaki, E W Hill, K Hirota, H Kakoi, H Gawahara, T Miyake, S Sugita, T Hasegawa, N Ishida, Y Nakano, M Kurosawa*
- 53 A microsatellite analysis of five Colonial Spanish horse populations of the southeastern United States  
*E K Conant, R Juras, E G Cothran*
- 63 Identification of quantitative trait loci affecting resistance to gastrointestinal parasites in a double backcross population of Red Maasai and Dorper sheep  
*M V B Silva, T S Sonstegard, O Hanotte, J M Mugambi, J F Garcia, S Nagda, J P Gibson, F A Iraqi, A E McClintock, S J Kemp, P J Boettcher, M Malek, C P Van Tassell, R L Baker*
- 72 Accuracy of genotype imputation in sheep breeds  
*B J Hayes, P J Bowman, H D Daetwyler, J W Kijas, J H J van der Werf*

Short Communications

- 81 Single nucleotide polymorphisms in the imprinted bovine *insulin-like growth factor 2 receptor* gene (*IGF2R*) are associated with body size traits in Irish Holstein-Friesian cattle  
*E W Berkowicz, D A Magee, D P Berry, K M Sikora, D J Howard, M P Mullen, R D Evans, C Spillane, D E MacHugh*
- 88 Identification of polymorphisms in the *malic enzyme 1, NADP(+)-dependent, cytosolic and nuclear receptor subfamily O, group B, member 2* genes and their associations with meat and carcass quality traits in commercial Angus cattle  
*J L Gill, S C Bishop, C McCorquodale, J L Williams, P Wiener*
- 93 Association analyses of single nucleotide polymorphisms in bovine *stearoyl-CoA desaturase* and *fatty acid synthase* genes with fatty acid composition in commercial cross-bred beef steers  
*C Li, N Aldai, M Vinsky, M E R Dugan, T A McAllister*
- 98 Genetic relationships between Japanese native and commercial breeds using 70 chicken autosomal SNP genotypes by the DigiTag2 assay  
*T Shimogiri, N Nishida, M Kudo, K Niwa, M Nishibori, K Kinoshita, S Okamoto, Y Maeda, K Tokunaga, H Yasue*
- 104 Polymorphism identification in the goat *KITLG* gene and association analysis with litter size  
*X P An, J X Hou, G Li, Y X Song, J G Wang, Q J Chen, Y H Cui, Y F Wang, B Y Cao*
- 108 Genetic variability and individual assignment of Chinese indigenous sheep populations (*Ovis aries*) using microsatellites  
*L L Niu, H B Li, Y H Ma, L X Du*

Brief Notes

- 112 Evaluation of polymorphisms within the genes *GHSR* and *SLC2A2* that are within a region on bovine chromosome 1 (BTA1) previously associated with feed intake and weight gain  
*A K Lindholm-Perry, L A Kuehn, W M Snelling, T P L Smith, C L Ferrell, T G Jenkins, H C Freetly*
- 112 Exclusion of *COL2A1* in canine Legg-Calvé-Perthes disease  
*A N Starr-Moss, K L Nowend, K M Alling, E J Zepp, K E Murphy*
