Volume: 65 / Number: 1 / February 2012 / ISSN: 1364-727X

WILEY-
BLACKWELL

REVIEWS

- Page 1 Bioactive peptides in dairy products
J Choi, L Sabikhi, A Hassan and S Anand
- Page 13 Formation and potential uses of milk proteins as nano delivery vehicles for nutraceuticals: A review
M H Abd El-Salam and S El-Shibiny

ORIGINAL RESEARCH

- Page 22 Milk transport costs under differing seasonality assumptions for the Irish Dairy Industry
C Quinlan, M Keane, D O' Connor and L Shalloo
- Page 32 Effects of proteose-peptone fractions from yak milk on lipoprotein lipase lipolysis
S-H He, Y Ma, J-Q Wang, Q-M Li, S Tang and H-M Li
- Page 38 Genetic polymorphism of kappa-casein, growth hormone and prolactin genes in Turkish native cattle breeds
B Akyuz, O K Agaoglu and O Ertugrul
- Page 45 A survey of the physicochemical and microbiological quality of ultra-heat-treated whole milk in Brazil during their shelf life
R de Longhi, N Spinardi, M T Nishimura, M Y Miyabe, L C Aragon-Alegro, M de Rezende Costa and E H W de Santana
- Page 51 Application of a Large Field-of-View sensor during coagulation and syneresis in fresh goat cheese manufacture
S Rovira, V Garcia and M B López
- Page 57 Light-induced protein and lipid oxidation in low-fat cheeses: Effect on degree of enzymatic hydrolysis
T K Dalsgaard, M Bakman, M Hammershøj, J Sørensen, C Nebel, R Albrechtsen, L Vognsen and J H Nielsen
- Page 64 Changes in physicochemical and organoleptic properties of traditional Iranian cheese *Lighvan* during ripening
A R Shahab Lavasani, M R Ehsani, S Mirdamadi and M A Ebrahim Zadeh Mousavi
- Page 71 The effect of varying fat content on the microstructure of Oaxaca cheese, a typical pasta filata cheese
M D L Á Colin-Cruz, O Dublán-García, A Espinoza-Ortega and A Dominguez-Lopez
- Page 81 The biodiversity and evolution of lactic flora during ripening of the Iranian semisoft *Lighvan* cheese
M R Edalatian, M B Habibi Najafi, A Mortazavi and B Mayo
- Page 90 Partial characterisation of enterocin KP produced by *Enterococcus faecalis* KP, a cheese isolate
H Isleroglu, Z Yildirim, M Tokatli, N Oncul and M Yildirim
- Page 98 Determination of inorganic elements in milk powder using wavelength dispersive X-ray fluorescence spectrometer
Habib-ur-Rehman, I Rehana and W Yawar
- Page 104 Effect of long-chain inulin on the texture profile and survival of *Lactobacillus paracasei* ssp. *paracasei* in set yoghurts during refrigerated storage
T C Pimentel, S Garcia and S H Prudêncio
- Page 111 Physicochemical, mineral and sensory properties of set-type yoghurts produced by addition of grape, mulberry and carob molasses (*Pekmez*) at different ratios
O B Karaca, I B Saydam and M Güven
- Page 118 Optimisation of probiotic yoghurt production containing Zedo gum
Z Ghasempour, M Alizadeh and M R Bari
- Page 126 Identification of microbial flora in kefir grains produced in Turkey using PCR
T K Taş, F Y Ekinci and Z B Guzel-Seydim
- Page 132 Technological characterisation of *Lactobacilli* isolated from Chinese artisanal fermented milks
C Ma, L Zhang, D Ma, M Du, X Han, H Yi, L Zhang, Z Feng, Y Zhang, Y Zhang and W Song
- Page 140 Restoration of kefir grains subjected to different treatments
P Kołakowski and M Ozimkiewicz
- Page 146 Formulation optimisation of a whey lemon beverage using a blend of the sweeteners aspartame and saccharin
M K Meena, S Arora, A M Shendurse, V Sharma, B K Wadhwa and A K Singh
- Page 152 The use of clarified butter sediment waste from dairy industries for the production of mosquitocidal bacteria
S Poopathi and S Abidha

BOOK REVIEWS

- Page 158 Fermented Foods and Beverages of the World (2010) by A Kanekanian
- Page 158 How to Use Sampling Plans for Inspection by Variables in the Case of Measurement Error (2008) by M Foot
- Page 159 International Collaborative Study on the Gas-Liquid Chromatographic Method for the Determination of Milk Fat Purity in Milk and Milk Products by Analysis of Triglycerides – Draft International ISO 17678| IDF 202 (2009) by N Menz
