

CONTENTS

REVIEW ARTICLE

- 1 Small intestine development in chicks after hatch and in pigs around the time of weaning and its relation with nutrition: A review
P.J.A. Wijtten, D.J. Langhout and M.W.A. Verstegen

ORIGINAL ARTICLES

- 13 Effects of genotype and sex on predicted feed intake and performance of a growing pig
S. Yoosuk, H.B. Ong, S.W. Roan, C.A. Morgan and C.T. Whittemore
- 24 Genetic parameters and effect of selection for body weight in lines of mink (*Neovison vison*) on ad libitum and restricted feeding
V.H. Nielsen, S.H. Møller, B.K. Hansen and P. Berg
- 29 The effects of protein and energy intake levels on the simulated performance and body composition between 30 and 60 kg of a growing pig
S. Yoosuk, H.B. Ong, S.W. Roan, C.A. Morgan and C.T. Whittemore
- 40 Effect of maturity at harvest on *in vitro* methane production from ensiled grass
L. Holtshausen, S.H.-O. Liestøl, S.K. Nes, K.A. Beauchemin, O.M. Harstad and T.A. McAllister
- 46 Effect of *Mentha piperita* L. on *in vitro* rumen methanogenesis and fermentation
P. Zmora, A. Cieslak, E. Pers-Kamczyc, A. Nowak, J. Szczechowiak and M. Szumacher-Strabel
