

CONTENTS

Research Reports

- Investigation of avian influenza viral ribonucleic acid destruction in poultry co-products under rendering conditions**
A. B. Leaphart, T. R. Scott, S. D. Chambers, W. C. Bridges Jr., and A. K. Greene 719
- Evaluation of the role of glycine in low-protein amino acid-supplemented diets**
J. Yuan, A. Karimi, S. Zornes, S. Goodgame, F. Mussini, C. Lu, and P. W. Waldroup 726
- Dietary amino acid optima: An economic appraisal**
U. Aftab 738
- Influence of pelleting on the efficacy of an exogenous enzyme cocktail using broiler performance and metabolism**
K. R. Beaman, K. G. S. Lilly, C. K. Gehring, P. J. Turk, and J. S. Moritz 744
- Levels of digestible threonine for male broilers from 1 to 7 days of age**
R. C. L. Neto, F. G. P. Costa, R. L. Furlan, P. E. N. Givisiez, C. C. Goulart, C. F. S. Oliveira, S. A. N. Morais, R. M. Bezerra, and M. R. Lima 757
- Dietary biotin supplementation does not alleviate the development of footpad dermatitis in broiler chickens**
Ö. Cengiz, J. B. Hess, and S. F. Bilgili 764
- Influence of graded levels of dietary sodium on the development of footpad dermatitis in broiler chickens**
Ö. Cengiz, J. B. Hess, and S. F. Bilgili 770
- Evaluation of the use of feeding distillers dried grains with solubles in combination with canola meal on broiler performance and carcass characteristics**
B. Jung, R. D. Mitchell, and A. B. Batal 776
- Skin pigmentation in broiler chickens fed various levels of metabolizable energy and xanthophylls from *Tagetes erecta***
J. I. Muñoz-Díaz, B. Fuente-Martínez, X. Hernández-Velasco, and E. Ávila-González 788
- Performance and carcass characteristics of Cobb × Cobb 500 slow-feathering male broilers fed on dietary programs having stepwise increases in ideal protein density**
S. L. Vieira, D. Taschetto, C. R. Angel, A. Favero, N. C. Mascharello, and E. T. Nogueira 797
- The efficacy of clay enterosorbent to ameliorate the toxicity of aflatoxin B₁ from contaminated corn (*Zea mays*) on hematology, serum biochemistry, and oxidative stress in ducklings**
Y. Li, Y. H. Liu, Z. B. Yang, X. L. Wan, and F. Chi 806

| | |
|--|-----|
| Effect of therapeutic supplementation of the plant compounds <i>trans</i>-cinnamaldehyde and eugenol on <i>Salmonella enterica</i> serovar Enteritidis colonization in market-age broiler chickens | |
| A. Kollanoor-Johny, A. Upadhyay, S. A. Baskaran, I. Upadhyaya, S. Mooyottu, N. Mishra, M. J. Darre, M. I. Khan, A. M. Donoghue, D. J. Donoghue, and K. Venkitanarayanan | 816 |
| Effects of inorganic feed phosphate on feed quality and manufacturing efficiency | |
| K. G. S. Wamsley, C. K. Gehring, A. Corzo, E. A. Fontana, and J. S. Moritz | 823 |
| Effects of particle size and feed form on broiler performance | |
| C. G. Chewning, C. R. Stark, and J. Brake | 830 |
| Interactive effects of digestible valine- and isoleucine-to-lysine ratios provided to male broilers from 4 to 6 weeks of age | |
| W. A. Dozier III, P. B. Tillman, and J. Usry | 838 |
| Evaluation of the partial replacement of high-protein feedstuff with fermented soybean meal in broiler diets | |
| L. C. Wang, C. Wen, Z. Y. Jiang, and Y. M. Zhou | 849 |
| Effect of different levels of dietary sodium from sodium chloride on gastrointestinal tract response, tibia mineralization, and footpad dermatitis incidence in young turkeys | |
| J. Jankowski, Z. Zduńczyk, K. Lichtorowicz, and J. Juskiwicz | 856 |
| Effects of digestible lysine intake level on Cobb 500 broiler breeder hen reproductive performance | |
| L. Mejia, C. D. McDaniel, K. Lopez, H. M. Parker, and A. Corzo | 868 |
| Field Reports | |
| Litter ammonia losses amplified by higher airflow rates | |
| D. M. Miles, D. E. Rowe, and P. A. Moore Jr. | 874 |
| Impact of feeding lower levels of chelated trace minerals versus industry levels of inorganic trace minerals on broiler performance, yield, footpad health, and litter mineral concentration | |
| M. K. Manangi, M. Vazquez-Añon, J. D. Richards, S. Carter, R. E. Buresh, and K. D. Christensen | 881 |
| Palatability of tannin-rich sericea lespedeza fed to broilers | |
| J. R. Moyle, J. M. Burke, A. Fanatico, J. A. Mosjidis, T. Spencer, K. Arsi, I. Reyes-Herrera, A. Woo-Ming, D. J. Donoghue, and A. M. Donoghue | 891 |
| Review Articles | |
| <i>Mycoplasma gallisepticum</i> in the commercial egg-laying hen: A historical perspective considering the effects of pathogen strain, age of the bird at inoculation, and diet on performance and physiology | |
| E. D. Peebles and S. L. Branton | 897 |
| Using barley in poultry diets—A review | |
| J. P. Jacob and A. J. Pescatore | 915 |
