

Soil & Plant Science

CONTENTS

REVIEW ARTICLE

- 673 Trace elements in soils and food chains of the Balkan region
M. Manojlovic and B.R. Singh

ORIGINAL ARTICLES

- 696 Intercropping with garlic alleviated continuous cropping obstacle of cucumber in plastic tunnel
X. Xiao, Z. Cheng, H. Meng, M.A. Khan and H. Li
- 706 Agricultural land needs protection
H. Linnér and I. Messing
- 711 The N and S status in cropping systems with white cabbage as influenced by organic fertilizers
S. Elfstrand, B. Båth and B. Lundegårdh
- 720 Spatial patterns of top soil carbon sensitivity to climate variables in northern Chinese grasslands
W. Zhao, J. Qi, G. Sun and F. Li
- 732 Quality, yield and nitrogen fixation of faba bean seeds as affected by sulphur fertilization
E. Cazzato, V. Tufarelli, E. Ceci, A.M. Stellacci and V. Laudadio
- 739 Physical protection of C and greenhouse gas emissions provided by soil macroaggregates from a Chilean cultivated volcanic soil
C. Muñoz, P. Torres, M. Alvear and E. Zagal
- 749 Factor controlling soil organic carbon and total nitrogen dynamics under long-term conventional cultivation in seasonally frozen soils
X. Pu, H. Cheng, Y. Shan, S. Chen, Z. Ding and F. Hao

SHORT COMMUNICATION

- 765 Host response of *Capsicum frutescens* cultivar 'Capistrano' to *Meloidogyne incognita* race 2
P. Mashela and K. Pofu
