

Water Resources Management

Volume 26 · Number 3 · February 2012

Spatial Analysis of Monthly and Annual Precipitation Trends in Turkey

H. Yavuz · S. Erdoğan 609

Sustainability of Groundwater Resources in the North-Eastern Region of Bangladesh

M.H. Ali · I. Abustan · M.A. Rahman · A.A.M. Haque 623

Runoff and Sediment Yield Modelling for a Treated Hilly Watershed in Eastern Himalaya Using the Water Erosion Prediction Project Model

R.K. Singh · R.K. Panda · K.K. Satapathy · S.V. Ngachan 643

Future Water Supply and Demand in the Okanagan Basin, British Columbia:

A Scenario-Based Analysis of Multiple, Interacting Stressors

K.J. Harma · M.S. Johnson · S.J. Cohen 667

Influence of Reservoir Operation in the Upper Reaches of the Yangtze River (China) on the Inflow and Outflow Regime of the TGR-based on the Improved SWAT Model

N. Zhang · H.M. He · S.F. Zhang · X.H. Jiang · Z.Q. Xia · F. Huang 691

Optimal and Adaptive Operation of a Hydropower System with Unit Commitment and Water Quality Constraints

A.R. Ferreira · R.S.V. Teegavarapu 707

Towards Quantification of the Water Footprint of Paper: A First Estimate of its Consumptive Component

P.R. van Oel · A.Y. Hoekstra 733

Modeling Groundwater Flow and Seawater Intrusion in the Coastal Aquifer of Wadi Ham, UAE

M. Sherif · A. Kacimov · A. Javadi · A.A. Ebraheem 751

Decision Support for the Selection of Measures according to the Requirements of the EU Water Framework Directive

B. Klauer · M. Rode · J. Schiller · U. Franko · M. Mewes 775

Sediment Yield Assessment of a Large Basin using PSIAC Approach in GIS Environment

V. Garg · V. Jothiprakash 799
