

# CONTENTS

Preface	
S. Bastianoni (Siena, Italy) . . . . .	1
Projecting future human demand on the Earth's regenerative capacity	
D. Moore (Oakland, CA, USA), G. Cranston (Bath, UK), A. Reed and A. Galli (Oakland, CA, USA) . . . . .	3
The real wealth of nations: Mapping and monetizing the human ecological footprint	
P.C. Sutton, S.J. Anderson, B.T. Tuttle and L. Morse (Denver, CO, USA) . . . . .	11
Biocapacity vs Ecological Footprint of world regions: A geopolitical interpretation	
V. Niccolucci, E. Tiezzi, F.M. Pulselli and C. Capineri (Siena, Italy) . . . . .	23
The ecological footprint housing component: A geographic information system analysis	
L.W. Kuzyk (Calgary, Canada) . . . . .	31
Ecological Footprint, environmental performance and biodiversity: A cross-national comparison	
D. Vačkář (Prague, Czech Republic and Brno, Czech Republic) . . . . .	40
Indicator and <i>indicandum</i> : "Sustainable way" vs "prevailing conditions" in the Ecological Footprint	
S. Bastianoni, V. Niccolucci, R.M. Pulselli and N. Marchettini (Siena, Italy) . . . . .	47
From global to place oriented hectares—The case of Israel's wheat ecological footprint and its implications for sustainable resource supply	
M. Kissinger (Beer-Sheva, Israel) and D. Gottlieb (Haifa, Israel) . . . . .	51
Modifying the yield factor based on more efficient use of fertilizer—The environmental impacts of intensive and extensive agricultural practices	
Z. Mózner, A. Tabi and M. Csutora (Budapest, Hungary) . . . . .	58
Soil ecosystem health and services – Evaluation of ecological indicators susceptible to chemical stressors	
M. Thomsen (Roskilde, Denmark), J.H. Faber (Wageningen, The Netherlands) and P.B. Sorensen (Roskilde, Denmark) . . . . .	67
Uncertainty and natural variability in the ecological footprint of fisheries: A case study of reduction fisheries for meal and oil	
R.W.R. Parker and P.H. Tyedmers (Halifax, Canada) . . . . .	76
New insights on ecological footprinting as environmental indicator for production processes	
M. Herva, C. García-Diéguez (Santiago de Compostela, Spain), A. Franco-Uría (Vigo, Spain) and E. Roca (Santiago de Compostela, Spain) . . . . .	84
Carbon footprints in a bipolar, climate-constrained world	
G.R. Cranston and G.P. Hammond (Bath, UK) . . . . .	91
Integrating Ecological, Carbon and Water footprint into a "Footprint Family" of indicators: Definition and role in tracking human pressure on the planet	
A. Galli (Oakland, CA, USA), T. Wiedmann (Canberra, Australia), E. Ercin (Enschede, The Netherlands), D. Knoblauch (Berlin, Germany), B. Ewing (Davis, CA, USA) and S. Giljum (Wien, Austria) . . . . .	100
A modified footprint method: The case study of Brazil	
L. Pereira and E. Ortega (Campinas, Brazil) . . . . .	113
Any sustainable decoupling in the Finnish economy? A comparison of the pathways and sensitivities of GDP and ecological footprint 2002–2005	
T. Mattila (Helsinki, Finland) . . . . .	128

*(Contents continued from Outside back cover)*

Ecological Footprint and Life Cycle Assessment in the sustainability assessment of tourism activities V. Castellani (Milano, Italy) and S. Sala (Milano, Italy and Ispra, Italy) .....	135
A joint implementation of ecological footprint methodology and cost accounting techniques for measuring environmental pressures at the company level M. Bagliani (Piemonte, Italy) and F. Martini (Turin, Italy) .....	148
The ecological footprint as a follow-up tool for an administration: Application for the Vanoise National Park N. Gondran (Saint Etienne, France) .....	157
