### PREFACE

Preface

149

### ORIGINAL ARTICLES

- Hammes, W.P. Metabolism of nitrate in fermented meats: The characteristic feature of a specific group of fermented foods 151
- Marty, E., Buchs, J., Eugster-Meier, E., Lacroix, C. and Meile, L. Identification of staphylococci and dominant lactic acid bacteria in spontaneously fermented Swiss meat products using PCR-RFLP 157
- Janssens, M., Myter, N., De Vuyst, L. and Leroy, F. Species diversity and metabolic impact of the microbiota are low in spontaneously acidified Belgian sausages with an added starter culture of *Staphylococcus carnosus* 167
- Iacumin, L., Manzano, M. and Comi, G. Catalase-positive cocci in fermented sausage: Variability due to different pork breeds, breeding systems and sausage production technology 178
- Lucquin, I., Zagorec, M., Champomier-Vergès, M. and Chaillou, S. Fingerprint of lactic acid bacteria population in beef carpaccio is influenced by storage process and seasonal changes 187
- Guilbaud, M., Zagorec, M., Chaillou, S. and Champomier-Vergès, M.-C. Intraspecies diversity of *Lactobacillus sakei* response to oxidative stress and variability of strain performance in mixed strains challenges 197
- Freiding, S., Ehrmann, M.A. and Vogel, R.F. Comparison of different IlvE aminotransferases in *Lactobacillus sakei* and investigation of their contribution to aroma formation from branched chain amino acids 205
- Sinz, Q. and Schwab, W. Metabolism of amino acids, dipeptides and tetrapeptides by *Lactobacillus sakei* 215
- Gutsche, K.A., Tran, T.B.T. and Vogel, R.F. Production of volatile compounds by *Lactobacillus sakei* from branched chain  $\alpha$ -keto acids 224
- Iacumin, L., Manzano, M. and Comi, G. Prevention of *Aspergillus ochraceus* growth on and Ochratoxin a contamination of sausages using ozonated air 229
- Schmidt-Heydt, M., Graf, E., Stoll, D. and Geisen, R. The biosynthesis of ochratoxin A by *Penicillium* as one mechanism for adaptation to NaCl rich foods 233
- Lücke, F.-K. and Vogeley, I. Traditional 'air-dried' fermented sausages from Central Germany 242
- Flores, M., Aristoy, M.C., Antequera, T., Barat, J.M. and Toldrá, F. Effect of brine thawing/salting on endogenous enzyme activity and sensory quality of Iberian dry-cured ham 247
- Yalınkılıç, B., Kaban, G. and Kaya, M. The effects of different levels of orange fiber and fat on microbiological, physical, chemical and sensorial properties of sucuk 255
